Description

The TS2431 is a programmable shunt voltage reference with guaranteed temperature stability over the entire temperature range of operation - 40 to + 105 °C. The output voltage may be set to any value between 2.5 and 24 V with an external resistor bridge. Available in a SOT23-3L surface mount package, the device can be implemented in applications where space-saving is of utmost importance.

Table 2. Absolute maximum ratings

Symbol	Parameter	Value	Unit
V _{ka}	Cathode to anode voltage	25	V
I _K	Reverse breakdown current	-100 to +150	mA
I _{REF}	Reference input current range	-0.05 to +10	mA
P _d	Power dissipation ⁽¹⁾ SOT23-3L	360	mW
T _{std}	Storage temperature	-65 to +150	°C
ESD	Human body model (HBM) ⁽²⁾	2	kV
	Machine model (MM) ⁽³⁾	200	V
T _{LEAD}	Lead temperature (soldering, 10 seconds)	260	°C

1. P_d has been calculated with T_{amb} = 25°C, T_{junction} = 150°C, R_{thjc} = 110°C/W and R_{thja} = 340°C/W for the SOT23-3 package.
2. Human body model: a 100 pF capacitor is charged to the specified voltage, then discharged through a 1.5 kΩ resistor between two pins of the device. This is done for all couples of connected pin combinations while the other pins are floating.
3. Machine model: a 200 pF capacitor is charged to the specified voltage, then discharged directly between two pins of the device with no external series resistor (internal resistor < 5 Ω). This is done for all couples of connected pin combinations while the other pins are floating.

Table 3. Operating conditions

Symbol	Parameter	Value	Unit
V _{KA}	Cathode to anode voltage	V _{REF} to 24	V
I _K	Cathode operating current ⁽¹⁾	1 to 100	mA
T _{oper}	Operating free air temperature range	- 40 to + 105	°C

1. Maximum power dissipation must be strictly observed to avoid damaging the component.

1. Limits are 100% production tested at 25° C. Limits over temperature are guaranteed through correlation and by design.
2. |ΔV_{REF}| is defined as the difference between the maximum and minimum values of V_{REF} obtained over the full temperature range.
