FLUSH

The unique 3 pin operated safety shutter makes Logic Plus sockets the safest available.

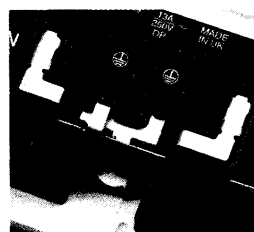

Terminals are grouped in pairs with terminal screws for convenient reconnection wiring. White marking on dark background makes the terminals easily identifiable.

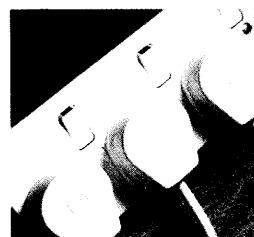

Guarantee

are prepared to make good, by repair or, at our option, by the supply of a replacement, defective goods which appear in the goods within the guarantee period, or workmanship by the customer.

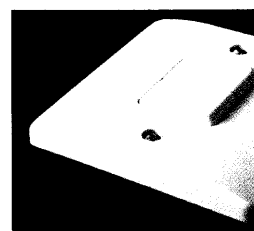

All products are guaranteed for 20 years (10 years for many operated electronic devices).

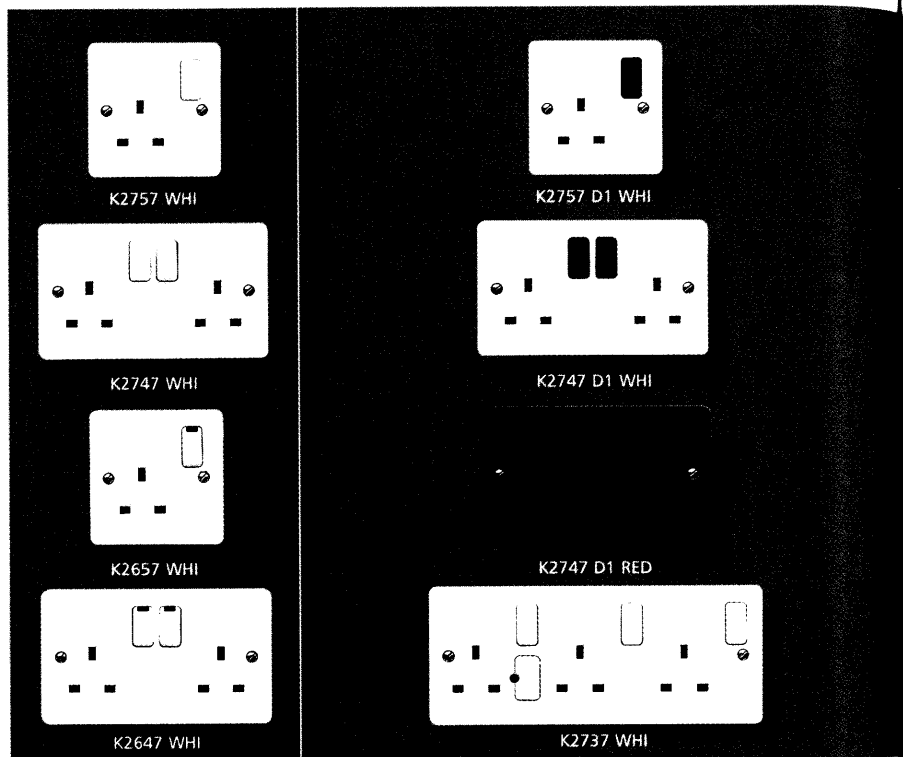

Many models are fitted with two earth terminals to provide high integrity earthing.

The 3 gang switchsocket provides extra outlet options in the home and office.

Frontplates are chamfered at the top with radius corners.
