Part No.	596-00325
Type	120VOLT
Color	Red (RD)
Features	• Pre-Printed Solar Labels are made using high performance UV stable materials and adhesives for long outdoor life. • Designed to meet NEC and IFC standards for PV installation labeling, the pre-printed Solar labels come printed with the most common legends required by the AHJ (Authority Having Jurisdiction) used on large utility and scaled projects to ensure code compliance during inspection. • Labels are UV stable and made with special high bond adhesives to stick to both powder coat painted surfaces and baked enamel surfaces found on most disconnect switches and breaker boxes. • The printed inks meet the fire safety standards of the IFC (International Fire Code) and also meet the requirements of UL969 for high reflectivity and durability.
Application Method	Labels are applied by hand to PV installations where durable UV resistant marking is required.
Color of Print	White (WH)
Technical Description	3.75" X 2" White text on red background that reads as: "WARNING - SINGLE 120-VOLT SUPPLY DO NOT CONNECT MULTIWIRED BRANCH CIRCUITS" - 50 per roll.
Typical Application	For use on stand alone PV systems where only 120-volt service is installed.
