

EASY Intelligent Relays

Product Overview

The EASY Intelligent Relays combine timers, relays, counters, special functions, inputs and outputs into one compact device that is easily programmed. The EASY family of products provides an exception level of flexibility together with substantial savings of commissioning time and effort.

The EASY Intelligent Relays are available in more than 35 styles that support from 12 I/O up to a network of up to 320 I/O points providing the ideal solution for lighting, energy management, industrial control, irrigation, pump control, HVAC and home automation.

Once EASY products are installed, changes are easily accomplished through front panel programming, eliminating the need to change wiring and minimizing downtime.

Application Description

The EASY Intelligent Relays excel in traditional applications where multiple relays, timers and pushbuttons are used. Applications span residential, commercial and industrial installations.

Typical control applications are:

- Car washes
- Automatic doors
- Commercial and residential lighting
- Pump control
- 12 Vdc automotive
- Greenhouse
- Machinery
- Irrigation
- Heating and air conditioning

EASY500/700/800 Intelligent Relays

Product Description

Three families make up the EASY Intelligent Relay product line.

EASY500 Series—for controlling small applications with up to 12 input/output signals. Models are available with and without displays. DIN rail mounted.

EASY700 Series—for controlling medium-sized applications with 20 I/O points (expandable to 40 I/O points). DIN rail mounted.

EASY800 Series—for controlling large-scale applications with 20 points, expandable to 40 points locally, and expandable using the **EASY-NET** network up to 320 I/O points. Models are available with and without displays. DIN rail mounted.

The **EASY-NET** integrated network provides easy and inexpensive linking of up to eight EASY800 devices over a distance of up to 1000 meters. Each EASY800 device can run its own program, or be used as a distributed input/output module. Connect up to eight controllers with up to 40 I/O to obtain 320 I/O.

MFD Intelligent Relays

Product Description

MFD Intelligent Relays are comprised of three parts, a display, a controller, and an I/O module. Match each piece to the needs of your application. If you need to both monitor and modify parameters within your application, choose the MFD-80-B. The preprogrammed and user programmable buttons give you the capability to make small changes to the way your application is running, start or stop a process, or change your program completely. Select a controller with or without **EASY-NET** support, and with AC or DC power. Finally, add the MFD I/O module that best suits your application.

MFD Series—for controlling small applications that require graphic visualization and for large-scale applications with 20 points, expandable to 40 points locally, and expandable using the **EASY-NET** network up to 320 I/O points. The MFD display can be linked to the EASY500/700/800 models to provide an enhanced text based operator interface. Panel mounted.

The **EASY-NET** integrated network provides easy and inexpensive linking of up to eight MFD devices over a distance of up to 1000 meters. Each MFD device can run its program, or be used as a distributed input/output module. Connect up to eight controllers with up to 40 I/O to obtain 320 I/O.

EASY/MFD Communication Modules

EASY/MFD Communication Modules

Product Description

Five modules are available for easily connecting to world-standard networks. The communication modules can be used with the EASY700/800 and MFD intelligent relays.

Available communication modules support:

- PROFIBUS-DP
- AS-I (Actuator Sensor Interface) networks
- CANopen
- DeviceNet
- Ethernet (also compatible with EASY500)

All modules act as a gateway and operate exclusively as a slave station on the network.

Product Selection

EASY204-DP Communication Module

EASY Communication Interface Modules

Description	Catalog Number
PROFIBUS-DP slave interface module	EASY204-DP
AS-Interface slave with 4 in and 4 out interface module	EASY205-ASI
CANopen interface module	EASY221-CO
DeviceNet slave interface module	EASY222-DN
Ethernet Gateway	EASY209-SE

Contents

Description	Page
EASY500/700/800 Intelligent Relays	V7-T40-20
EASY/MFD Expansion Modules	V7-T40-25
MFD Intelligent Relays	V7-T40-28
EASY/MFD Communication Modules	
Technical Data and Specifications	V7-T40-34

EASY/MFD Power Supplies, Accessories and Software	V7-T40-36

Technical Data and Specifications

EASY700/800/MFD Communication Interface Modules
EASY204-DP, EASY205-ASI, EASY221-CO, EASY222-DN, EASY209-SE ^①

Description	Specification
Supply voltage	24 Vdc
Heat dissipation ^②	1W
Connection cables	
Solid	0.2 – 4.0 mm ² (AWG 22-12)
Flexible	0.2 – 2.5 mm ² (AWG 22-12)
Degree of protection	IP20
RFI suppression	EN 55011, EN 55022 Class B, IEC 61000-6-1,2,3,4
Ambient operating temperature	–25° to 55°C
Transport and storage temperature	–40° to 70°C
Certification, standards	EN 50178, IEC/EN 60947, UL, CSA
Mounting	On top-hat rail to DIN 50022, 35 mm or screw mounting with ZB4-101-GF1 fixing brackets

Notes

^① EASY209-SE is also compatible with EASY500 Intelligent Relays.

^② EASY204-DP dissipates 2W.

EASY/MFD Power Supplies, Accessories and Software

Product Description**EASY/MFD Power Supplies**

12 Vdc and 24 Vdc power supplies for applications where only 100–240 Vac is available.

EASY/MFD Accessories

Memory modules, cables and other components to complete your automation solutions.

EASYSOFT Software

The EASYSOFT software is used to program all of the EASY and MFD controllers and displays. The Windows®-based software provides straightforward circuit diagram input and editing and the diagrams can be displayed in the format desired. When EASY800 and MFD controllers are connected using EASY-NET, all connected devices can be accessed and their programs loaded from a single controller.

EASYSOFT includes an integrated offline simulation tool that allows users to test a circuit diagram before commissioning.

Product Selection**EASY Power Supplies** ①

Description	Catalog Number
100–240 Vac input to 12 Vdc at 20 mA/24 Vdc at 250 mA	EASY200-POW
100–240 Vac input to 24 Vdc at 1.25A	EASY400-POW

Note

① See Technical Data and Specifications on **Page V7-T40-38** for more information.

Accessories

EASY/MFD Memory Storage Modules

Description	Catalog Number
EASY500/700 32K memory storage module	EASY-M-32K
EASY800/MFD 256K memory storage module	EASY-M-256K

EASY/MFD Cables and Connectors

Description	Catalog Number
EASY500/700 to PC programming cable RS-232 from PC	EASY-PC-CAB
EASY800/MFD to PC programming cable RS-232 from PC	EASY800-PC-CAB
