

4-Port USB 2.0 Hi-Speed Printer / Peripheral Sharing Switch

MODEL NUMBER: **U215-004-R**

Description

Tripp Lite's U215-004-R 4-port USB 2.0 Peripheral Sharing Switch allows you to connect up to four computers to one USB peripheral such as a printer, scanner, high-capacity hard drive and many others. Ideal for and small office computers. It not only saves space, but also eliminates the cost of buying separate USB devices for every computer. Plus, it simplifies cable management in the office area.

- Quickly switch between computers using keyboard hot-keys, mouse, or manually.
- Plug-and-play functionality makes installation a breeze.
- Supports both high-speed USB 2.0 peripherals with transfer rates up to 480 Mbps. Backward compatible to legacy USB 1.1 devices
- Compatible with most major operating systems
- Icon task bar indicates switch status at a glance, and active LEDs indicate which computer is currently using the peripheral.
- No separate AC adapter required. Power is drawn through the USB cables.

Features

- **The Perfect Solution for Home or Office Workstations:** Tripp Lite's U215-004-R allows you to share a USB peripheral between four separate computers. This space-saving functionality is perfect for home or office workstations that need to share a printer, scanner or high-capacity hard drive among multiple PCs.
- **Eliminate the Need for Redundant Peripherals:** The U215-004-R peripheral sharing switch eliminates the need for peripherals attached to each computer, which saves money, space and time when setting up a multi-PC application.
- **Broad Compatibility:** The U215-004-R is compatible with both USB 2.0 and USB 1.1 so it can be used with any USB peripheral that needs to be shared. The unit is also compatible with most major operating systems, including Mac OS X and Windows 98SE/2000/ME/XP/Vista/WIN7 (both 32 and 64-bit versions).

Highlights

- Allows multiple computers to share one USB device such as a printer, scanner and hard drive.
- Eliminates the need of buying separate USB devices for every computer.
- One-touch port switching via a mouse, hot-key or manually
- Supports Hi-Speed USB 2.0 480Mbps data transfer rates
- Active LED indicator displays which computer is using the peripherals
- Windows 7 and 8 (32/64 Bit) Compatible

Applications

- Notebook and desktop computers

System Requirements

- Windows 98SE/2000/ME/ XP/ Vista / WIN7 / WIN8
- Mac OS X 10.3 - 10.8
- USB port
- CD-ROM drive

Package Includes

- U215-0004-R 4-port Peripheral Sharing Device
- USB cable
- Software CD with user guide
