Quantity: 1

Base #: SC-914S-7 SKU #: *SC-914S-741

[Pricing:](#)

Optional FREE Serialization!

In box below enter "Yes" and starting number or we'll assign the number. Skip this step if you don't want your cables numbered.

Note: This Cat5e straight-thru patchcord features a one-piece connector with strain relief clamp that makes it extremely durable. The overall foil shield is terminated to the RJ45 plug, and helps prevent electromagnetic interference (EMI).

- Lifetime warranty!
- Free serialization!
- Individually bagged for easy handling.

The flexible snagless boot provides protection for the RJ45 clip and helps prevent tangles.

- Used in industry-standard 100Base-TX networks for 100 megabit Fast Ethernet over copper wiring.
- Cat5e ("enhanced") cables provide performance improvements over Cat5 cables.
- Conductive load bar helps reduce Near-End Crosstalk (NEXT), improving data integrity.
- Cat5e cable is backward compatible with Cat3 and Cat5.
- Stranded cable is for lengths to 25 feet.
- Solid cable (listed below) can be used for all lengths including those longer than 25 feet.

Optional FREE Serialization!

We'll assign a unique number to each cable (or let you choose your own), and label each end of the cable for **easy identification**. We'll even **track your numbers** so you'll never get a duplicate. Request serialization today!

- Saves Time!
- Ends Confusion!
- Free!

To Request Serialization

Simply enter "Yes" in the box provided. If you require a specific **starting number**, enter that also. If you don't enter a starting number, we'll start with 1 on the first order. On additional orders we'll **continue numbering in sequence**. It's that easy!
