Base Data

Part No.	151-00174
Type	EC39
Color	Black
Features	HellermannTyton's edge clips are designed specifically to route bundles by securing them to the edge of a plastic or metal sheet without the need for a mounting hole. The clip is easy to secure and the extraction force is high due to the integrated metal clamp that holds the edge clip in place.

Application	This edge clip cable clamp is ideal for use where holes are not available or where adhesives are not strong enough. Edge clips are widely used for fixing and bundling cables and wires in the automotive, harness making, panel building and renewable energy industry.
