

## Workplace SPECIAL

Where first-aid is concerned, a building site cannot and should not be compared to an office. The same rational should be applied to all industrial sectors. Accidents and injuries will inevitably vary according to the work environment and occupation. First-aid should, therefore, be tailored to meet the particular needs and requirements of different occupations.

Through Research & Development, SÖHNGEN® has objectively studied the different industrial sectors and has developed a series of first-aid kits, that take into account their differing first-aid needs and requirements, when accidents happen.

The product content for each kit begins with the German product filling Norm DIN 13 157. Each kit is then supplied with top quality first-aid products, that are carefully selected to satisfy the particular first-aid demands of the occupation. As with all SÖHNGEN® products, only the best quality products are used so that durability as well as reliability are guaranteed.

Basis for this series is the first-aid kit MT-CD. Measuring 400 x 300 x 150 mm and manufactured from high grade ABS thermo plastic, the kit is splashproof, impact, decay and temperature withstanding. The kit comes with a rotary locking system, adjustable interior kit divisions, transparent lid covers and sturdy carrying handle. The wall bracket has a 90° stop-arrest locking facility that allows the contents to be removed without having to detach the kit from its bracket. When mobile use is necessary, the kit can be quickly removed from the bracket in order to reach the scene of the accident. Only high grade, unobjectable plastic material is used in the manufacturing of these kits, thus ensuring the highest hygienic standards are always maintained.

For tailored printing, customers based outside of Germany are kindly requested to contact our export department for price, minimum order quantities and delivery times.

## First-Aid Kits, Workplace SPECIAL

### Metal Work

03 60 108

Foundry, Steel or Metal Production Plants, Aluminium Plants, Lock Smiths, Welding Shop, Plumbing and other Metal Works

### Garage / Work Shop

03 60 111

Garage Repair Shops and other Technical Workshops

### Building Sites

03 60 101

High & Low Building Sites, Ground/Foundation Works, Demolition Works, Landscape Gardeners

### Plastics Industry

03 60 105

Production and Manufacturing and all other Plastic Works

### Laboratory & Chemistry

03 60 106

Chemical industry, Medical, Technical and Chemical Laboratories

### Wood Work

03 60 104

Saw Mills, Furniture Industry, Joinery, Carpenters, Cabinet Maker, Wood Carving and Furniture Restoration

### Food Industry

03 60 109

Food Preparation and Production, Frozen Meals Production, Fast Food, Abbatoirs, Dairys, Bakeries

### Forestry and Agriculture

03 60 107

Agricultural Production Units, Breeding Farms

### Administration

03 60 110

Office Blocks, Insurance Companies, Administration Departments in Industry and Trade
