

PRODUCTS IN THE RANGE

- KY/EPDX

To NFC 93521 & NFC 32070/C1 French specifications

- Operating voltage: 250 and 750 Volts
- Operating temperature: - 40°C up to + 105°C (ambient temperature + rise)

Main characteristics:

- These wires are mainly designed for internal wiring in electronic equipment.
- They are fire retardant (to NFC 32 070/C1 French specification)

CONSTRUCTION

1- CONDUCTOR:

Solid (KY31A) or stranded (KY30 & KY33A) annealed tinned copper wires

2- INSULATION:

High temperature polyvinyl chloride (PVC)

UNSCREENED HOOK-UP WIRES
