

# Heavy Duty Insulation Piercing Clip

- Plunger style insulation piercing clip with insulated jaws
- Stainless steel tip pierces insulated wires for otherwise inaccessible test points
- Extremely small piercing point allows for maximum integrity of insulation
- Pierces insulated wires from 30 AWG (.25 mm<sup>2</sup>) to 14 AWG (1.5 mm<sup>2</sup>)
- Recommended for use with Fluke TL24 Silicone Test Leads. Compatible with all test leads having standard 4 mm (.160") shrouded banana plugs
- Conforms to safety standard IEC 1010-2-031, CAT III @ 1000V, CAT IV @ 600V, Pollution Degree 2
- Maximum Current: 5 Amps
- One year warranty

## **WARNING to avoid possible electrical shock or personal injury:**

- DO NOT USE above maximum ratings.
- Inspect test lead components for damage and check for continuity. DO NOT USE test leads that are damaged or show high resistance.
- Clean with a soft towel moistened with water and mild detergent. DO NOT IMMERSE in liquid.
- Intended for use only with instruments that have adequate arc explosion protection, such as Fluke CAT III and CAT IV rated instruments.
