

Shaft-Mounted Circular Brushes Record

Record shaft-mounted circular brushes are produced from crimped wire in various qualities. They are ideal for use in power drills, on flexible shafts, in pneumatic grinders and in bench machines.

Fill types: RECORD

STD – Steel wire, natural hard, crimped.

INOX – Stainless steel wire, acid resistant, crimped.

MES – Brass wire (Cu-Zn), crimped.

Applications:

Preparation of all kinds of surfaces, especially at hard-to-reach areas.

For smoothing, trimming of casting joints and rubber to metal bonded parts, light deburring work and the removal of corrosion and paint.
