# Honeywell

## Interactive Catalog Replaces Catalog Pages

Honeywell Sensing and Control has replaced the PDF product catalog with the new Interactive Catalog. The Interactive Catalog is a power search tool that makes it easier to find product information. It includes more installation, application, and technical information than ever before.

Click this icon to try the new Interactive Catalog.

Sensing and Control Honeywell Inc. 11 West Spring Street Freeport, Illinois 61032

# Heavy Duty DC Adjustable, 2-Wire Analog

#### **FEATURES**

- Silicon sensor chip is enclosed in stainless steel welded diaphragm
- Rugged diecast zinc plug-in limit switch style housing
- 2-wire, 4-20 mA output current linearly proportional to pressure
- Sealed to meet NEMA 1, 3, 3R, 4, 6, 6P,
   12, 13
- Field adjustable null and span
- Protected against false pulse, transients and industrial noise
- 0 to +50°C operating and compensated temperature
- UL Listed.

#### SSPB SERIES PERFORMANCE CHARACTERISTICS, 25°C

|   | Min.   | Тур. | Max.         | Units           |
|---|--|------|--------------|-----------------|
| Supply Voltage  | 12.0   |      | 36.0         | VDC             |
| Hysteresis & Repeatability @ nominal span @ max. span comp. |  |      | ±0.5<br>±1.5 | %Span           |
| Temperature Error @ nom. span & max. comp.                  |  | ±6.0 | ±10.0        | %Span           |
| Response Time   |  |      | 2.0          | msec            |
| Weight  | 414 grams (.91 lb.) Note: w/o receptacle             |      |              |                 |
| Change in Current   | 4 to 20 mA proportional to pressure                  |      |              |                 |
| Null Pressure Setting (4 mA output)                         | Can be adjusted from 0 to 25% of full pressure range |      |              |                 |
| Full Pressure Setting (20 mA output)                        | Can be a sure rang                                   | ,    | m 75 to 100  | % of full pres- |

#### **ENVIRONMENTAL SPECIFICATIONS**

| Storage Temperature                   | -25° to +85°C (-13° to +185°F)  |
|---------------------------------------|---|
| Operating and Compensated Temperature | 0° to 50°C (32° to 122°F)   |
| Sealing                               | NEMA 1, 3, 3R, 4, 6, 6P, 12, 13*                                      |
| Media                                 | Limited only to those media which will not attack 316 stainless steel |

<sup>\*</sup>Application Note: Enclosures are based, in general, on the broad definitions outlined in NEMA standards. Therefore, it will be necessary for the user to determine that a particular enclosure is adequate when exposed to the specific conditions that might exist in intended applications. Except as might otherwise be noted, all references to products relative to NEMA enclosure types are based on MICRO SWITCH evaluation only.

#### SSPB SERIES ORDER GUIDE, GAGE PRESSURE

| Catalog<br>Listing | Nominal<br>Pressure<br>Range psig | Over<br>Pressure<br>Max. psi | Sensitivity (1)<br>Range<br>mA/psi |
|--------------------|-----------------------------------|------------------------------|------------------------------------|
| SSPB0015V          | 0-15                              | 30                           | 1.07 to 4.27                       |
| SSPB0100V          | 0-100                             | 200                          | 0.16 to 0.64                       |
| SSPB0250V          | 0-250                             | 500                          | 0.064 to 0.256                     |

Mating Receptacle LSZ 4001

16 mA

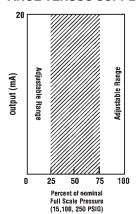

(1) NOTE: Sensitivity =

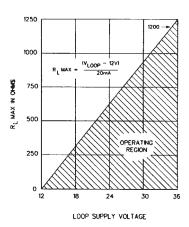

Upper Pressure Setting - Lower Pressure Setting

## **ELECTRICAL CONNECTIONS**

An ammeter, resistor (current output generates a voltage drop across the resistor) or any current sensing device is placed in series with a DC voltage source and the pressure sensor for proper operation. The load, represented by  $R_{\rm L}$ , can be placed on either or both sides of the voltage source. Total load resistance must be within operating area. Output and Power LEDs do not require separate wiring.

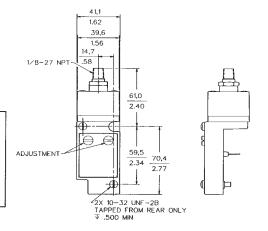

## MOUNTING DIMENSIONS
