

Alligator Clips

Type BU-3030 insulated alligator clip both ends. Type BU-3070 insulated alligator clips, positive and negative with 3" (76.2 mm) and 8" (203.2 mm), respectively lead wires with molded Y-block to stackable double banana plug. Type BU-3131 insulated mini-alligator clip, both ends. Type BU-3180 insulated mini-alligator clip to 0.025" (0.625 mm) square pin receptacle. Type BU-5030 insulated alligator clips, positive and negative with 3" (76.2 mm) and 8" (203.2 mm), respectively lead wires with molded Y-block to BNC male. Type BU-5031 insulated mini-alligator clips, positive and negative with 3" (76.2 mm) and 8" (203.2 mm), respectively lead wires with molded Y-block to BNC male.

BNC Breakouts

Series 5100 BNC Male Breakouts and Series 5200 BNC Female Breakouts feature tarnish resistant plated brass body, gold-plated center contact. Types BU-5100 and BU-5200 are BNC Male/Female to tinned end wires. Types BU-5131 and BU-5231 feature BNC to alligator clips. Types BU-5144 and BU-5244 feature BNC to 0.080" pins. In addition, male only BNC connectors are available to "Clipper" Test Leads (Type BU-5114), and to standard banana plugs (Type BU-5120). All Breakouts are four inches (4") long. Wires and terminations are color coded red and black for easy identification.

BNC and Banana Interconnects

Type BU-5050 has BNC Male Connectors at both ends. Type BU-5656 is the same except features fully insulated BNC Male Connectors. Type BU-5659 is a BNC Male-Female coaxial cable. Type BU-5070 is a BNC to Banana cable assembly. Type BU-7070 has dual banana plugs 0.75" OC on coax. Type BU-7171 features shielded dual banana (0.75" OC). Type BU-5671 combines the insulated versions of both the BNC Male and double banana into the same assembly. All on RG-58 (50 Ω) cable.

Banana and Pin Plugs

Type BU-2020 stackable single banana plugs both ends. BU-2030 insulated alligator clip to stackable banana plug. BU-2031 stackable single banana plug to insulated mini-alligator clip. BU-2929 "Ultra-Flex" test leads are laboratory-grade for superior performance and longer life. BU-4444 stackable 0.080" pin plug both ends. BU-5656-B insulated BNC male both ends, black only. BU-5659-B insulated BNC male to BNC female, black only. BU-7070 stackable double banana plugs both ends.

860-7658	BU-00203-2	Red	3.5"	1.77

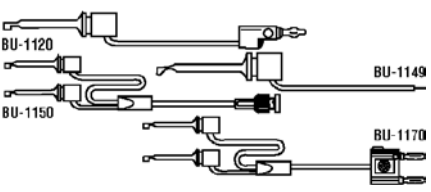

“Mini-Micro-Clipper” Plunger Test Clips

Type BU-00208 is similar, except small extremely lightweight. Plastic barrier on tip to prevent shorting between DIP legs. For connection to component leads to 0.025". BeCu contacts. MIL Spec G45204.

Stock No.	Mfr.'s Type	Color	Length	EACH
860-7675	BU-00208-0	Black	1.8"	1.80
860-7676	BU-00208-2	Red	1.8"	1.80

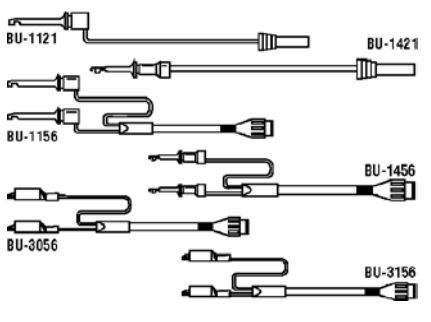

“Mini-Clipper” Test Clips

Type BU-1120 attaches to delicate component leads and terminals. Stackable banana plug terminates the other end of test lead. Type BU-1149 to tinned end wire. Type BU-1150 positive and negative with 3" and 8" leads with molded "Y" block to BNC male. Type BU-1170 positive and negative with 3" and 8" lead wires with molded "Y" block to stackable double banana plug.

Safety Test Clips

Type BU-1121 consists of a clipper to shielded banana plug. Type BU-1421 includes a mini-micro clipper to shielded banana plug useful for connection to fine wiring. Types BU-3056 and BU-3156 are dual alligator clips and mini-alligator clips, respectively to completely shielded BNCs. Types BU-1156 and BU-1456 are clippers and mini clippers, respectively to completely shielded BNCs.
