

3M™ Trizact™ Lapping Film 162XA

Product Description

Structured, fixed abrasive composite film consisting of inorganic particles in an organic binder capable of lapping soft materials with a Mohs hardness of < 3 on varied equipment and processes. 3M™ Trizact™ Lapping Film 162XA is also suitable for wiping and cleaning surfaces with Mohs hardness of > 3.

Key Features

- Removes soft metal asperities without embedding

Typical Physical Properties

Note: The following technical information and data should be considered representative or typical only and should not be used for specification purposes.

Inorganic particle size:

99 - 100% finer than 46.0 microns
4 - 8% finer than 2.0 microns

Mohs hardness of inorganic particles is 3.0.

Available Dimensions

The standard dimensions are 3.25 mm width x 150 ft. length x 3 in. core.

Available in different widths by special request.

Storage and Shelf Life

Recommended Storage Conditions:

Temperature 50 - 90°F (10 - 32°C)

Relative humidity 30 - 70%

(There is no degradation with time. It is recommended that product be used within 24 months of purchase.)

Precautionary Information

Refer to Product Label and Material Safety Data Sheet for Health and Safety Information before using this product.

For additional health and safety information, call 1-800-364-3577 or (651) 737-6501.
