# PLCC ADAPTORS PLCA SERIES

## Adaptors Mate with Plastic Leaded Chip Carrier Sockets

Samtec PLCA Series adaptors use precision drawn, spring temper Phosphor Bronze wire for high reliability mating with most common PLCC sockets. These adaptors are available with a choice of surface mount or through hole tails and either full tin plating or selective plating with gold on the contact area of the terminal.

The insulator is FR-4 epoxy board, suitable for most infrared and vapor phase reflow soldering processes. It is available with or without alignment pins.
