ATSTK600-TQFP44

Description:

The STK600-TQFP44 package contains socket board and adapter boards for 44-pins TQFP 0.8 mm pitch devices, and is an expansion module for STK600.

ATSTK600 must be bought separately.

Note:
See the STK600 Socket Package Selection Guide to make sure you got the right revision of the socket package to support your device.

Ordering Code: ATSTK600-TQFP44

✓ **Check Distributor Inventory**

Documents:

AVR600: STK600 Expansion, routing and socket (Application Note, 18 pages, revision A, updated 8/08)
This application note describes the process of developing new routing, socket and expansion cards for the STK®600. It also describes the physical parameters for creating such cards.
