Spacer, Round, Zinc Clear Chromate with Blue Tint, Brass, M5 Screw, 8mm Length

Part ID: **BR5007-50-08.0-34**

Technical Specifications

Material Grade (Alloy):	Brass 360 (ASTM-B-116, QQ-B-626) 353 (ASTM-B-116)	Clearance Hole	Screw Number - M5 Diameter - 5.17mm-5.43mm
Profile	Round	Finish Desc. (Spec)	Zinc Clear Chromate with Blue Tint (ASTM-B633)
Outside Diameter	8.0mm	Compliant To	RoHS, WEEE, REACH, Conflict Minerals
Overall Length	8mm		

Available Finishes

34 - Zinc Clear Chromate with Blue Tint

Stock and Lead Time

Stock	0	Available
Stock to Plate	0	1 to 2 weeks
Manufacture Lead Time	10-11	Weeks

Product Description

Spacers are used to create space between 2 objects in an assembly. In the world of Electronic Hardware and Electronic Components, spacers are most often found spacing circuit boards, motherboards, panels and doors. Lyn-Tron Spacers are unthreaded and come in Steel, Stainless Steel, Aluminum, Brass and Nylon. All Lyn-Tron Electronic Hardware is made in the USA and held to the highest quality standards. The round shape provide a nice finished look. Brass is corrosion resistant, nonmagnetic, and easily machinable. Base metal is yellow, but many plating options are available when different colors are required.
