

531-911

FLANGED ABS BOX

SURFACE MOUNTING BOX WITH BASE

This box is moulded in ABS to give maximum strength but can be easily punched or drilled for individual requirements.

This flange mounting case has a separate self-locking base and seven numbered slots are provided for wires for 0.25" PCB mounting blades.

A raised panel is provided for labels.

The smart appearance makes it ideal for alarms or automotive applications.

Standard colour is black but other colours are available to order.
