

# COMMAND SWITCHES

AR22•DR22/AR30•DR30  
AH164•AH165•AH165-2

16mm/22mm/30mm Diameter

## Preface

Fuji Electric manufactures FUJI COMMAND SWITCHES-pushbutton, illuminated pushbutton, and selector switches, and pilot lights.

FUJI COMMAND SWITCHES are used in machine tools, industrial machines, control panels, distribution panels, and instrumentation panels both in Japan and overseas.

COMMAND SWITCHES improve interfacing with better layout and wiring, easier installation, and increased safety.

Reliability is of course, built in to handle complex multifunctional control.

### ■ Command series

#### AR22/DR22

AF94-320

AF94-310

AF98-88

- 22mm diameter hole
- Mountable even on panel cutout 25mm in diameter.
- Provided with newly developed release arm
- Provided with terminal cover for safety and security
- UL, CSA, TÜV and CCC approved

#### AH164, 165

SK-1103

SK-1138

- 16mm diameter hole, finger-sized button
- Incandescent, neon and LED lamps are available.
- Block type contact
- AH165 series is oil-tight
- UL, CSA, TÜV and CCC approved

#### AR30/DR30

AF95-4

AF95-6

AF98-195

- 30mm diameter hole
- Provided with terminal cover for safety and security
- UL, CSA, TÜV and CCC approved

#### AH165-2

AF87-211

AF87-208

- 16mm diameter hole
- AH165-2 series are about twice as large as the AH165 series
- Incandescent, neon and LED lamps are available.
- Block type contact
- AH165-2 series is oil-tight
- UL, CSA, TÜV and CCC approved

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AR22 and DR22

### General information

The AR22 now uses a release arm with a wedge mechanism developed by Fuji Electric FA. This enables you to mount or remove the operator and contact block without using any tools. When fitting the switch to a panel, you can ignore the panel thickness. You have only to secure the operator with a locking nut from behind the panel without any need for adjustment. The improved locking nut is capable of mounting the operator in both 22.3mm and 25.5mm dia. panel cutout holes.

#### ■ Features

##### Facilitated mounting

- No adjusting of panel thickness is necessary.
- The button and lens can be mounted on a panel while the operator is engaged.
- Mountable even on a panel cutout 25.5mm in diameter.

#### Miniaturization

- Pushbuttons and selector switches with 1NO+1NC: 41mm deep
- Pilot lights: 37mm deep
- The transformer now occupies far less space.

#### Illuminated pushbuttons

AR22F0L

AR22E0M

AR22V0L

#### Pushbuttons

AR22E0R

AR22E0Y

AR22VGE

#### Pilot lights

DR22D0L

DR22D0L-□8, □9

#### Selectors

AR22PR

#### Easy replacing contact block and transformer

- Because of a snap-on mounting, replacement or addition of the contact block and transformer unit is very simple.
- The contact block is common to all the pushbuttons of this series.
- Contact block is easily replaced even when the pushbuttons are mounted closely together.
- Replacement of the contact block can be done with a screwdriver, without the need for any special tool.

#### Wiring

- Wiring from two directions is possible.
- Wiring in both vertical and lateral directions facilitates wiring in narrow spaces.
- Color coding of contact blocks makes wiring easy.  
1NO: Blue, 1NC: Red  
Lamp terminal and transformer unit: Black

#### Safety

- A terminal cover is provided, assuring safety and security.
- FUJI's original Trigger Action mechanism is used in the emergency stop pushbuttons. They are suitable for emergency stop and safety. This mechanism prevents the contacts from moving until the button is pushed and locked.
- Reliability of safety functions increased by integrated operator and contact block construction. (AR22VG)

#### Protection

- Excellent oil-tight construction (IP65) of the operator.
- Closure of the contact block has been improved.

## AR22 and DR22

### Part number system

#### Illuminated pushbuttons

**AR22 E0L – 10 E3 R** ☐

① ② ③ ④ ⑤ ⑥

##### ① Product category

AR22: 22mm-dia. illuminated pushbutton  
22mm-dia. emergency stop illuminated pushbutton

##### ② Operator

- Illuminated pushbutton
- F0L: Flush round head
- F5L: Flush round head (Alternate)
- E0L: Extended round head
- E5L: Extended round head (Alternate)
- M0L: Mushroom head (40mm dia.)
- M5L: Mushroom head (40mm dia. alternate)
- M4L: Mushroom head (29mm dia.)
- M9L: Mushroom head (29mm dia. alternate)
- G4L: Extended with transparent full guard (24mm dia.)
- G9L: Extended with transparent full guard (24mm dia. alternate)
- G2L: Extended with full guard (24mm dia. with openings)
- G7L: Extended with full guard (24mm dia. with openings, alternate)
- G1L: Extended with full guard (24mm dia.)
- G6L: Extended with full guard (24mm dia. alternate)
- V5L: Push-lock, turn-reset (40mm dia. with white arrow) \*1
- F0M: Flush square head
- F5M: Flush square head (Alternate)
- E0M: Extended square head
- E5M: Extended square head (Alternate)
- F0P: Flush round head with square bezel
- F5P: Flush round head with square bezel (Alternate)
- E0P: Extended round head with square bezel
- E5P: Extended round head with square bezel (Alternate)
- M4P: Mushroom head with square bezel (29mm dia.)
- Emergency stop illuminated pushbutton
- V0L: Push-lock, turn-reset (Soft-touch 40mm dia. with white arrow)
- V2L: Push-lock, turn-reset (40mm dia.)
- VDL: Push-lock, turn-reset (Soft-touch 40mm dia. transparent in all colors with white arrow)
- VAL: Push-lock, turn-reset (40mm dia. transparent in all colors)
- VSL: Push-lock, turn-reset (Soft-touch 29mm dia. with white arrow)
- VGf: Unibody push-lock, turn-reset (Soft-touch 40mm dia. with white arrow)

##### ③ Contact arrangement

|             |         |
|-------------|---------|
| 10: 1NO     | 30: 3NO |
| 01: 1NC     | 03: 3NC |
| 11: 1NO+1NC | 40: 4NO |
| 20: 2NO     | 04: 4NC |
| 02: 2NC     | 50: 5NO |
| 22: 2NO+2NC | 05: 5NC |

##### ④ Lamp voltage

- Incandescent lamp
- S4: 5.5V AC/DC, without transformer
- C4: 15V AC/DC, without transformer
- D4: 20V AC/DC, without transformer
- E4: 24V AC/DC, without transformer
- H4: 100-110V AC, with transformer
- L4: 115-127V AC, with transformer
- M4: 200-220V AC, with transformer
- Q4: 230-254V AC, with transformer
- S4: 350-380V AC, with transformer
- T4: 400-440V AC, with transformer
- V4: 480V AC, with transformer
- W4: 500-550V AC, with transformer
- LED lamp
- A3: 6V AC, without transformer
- 63: 6V DC, without transformer
- B3: 12V AC/DC, without transformer
- C3: 15V AC/DC, without transformer
- E3: 24V AC/DC, without transformer
- H3: 100-110V AC, with transformer
- L3: 115-127V AC, with transformer
- M3: 200-220V AC, with transformer
- Q3: 230-254V AC, with transformer
- S3: 350-380V AC, with transformer
- T3: 400-440V AC, with transformer
- V3: 480V AC, with transformer
- W3: 500-550V AC, with transformer

- Neon lamp (For AR22VGf)
- H1: 110V AC, without transformer
- K1: 120V AC, without transformer
- M1: 220V AC, without transformer
- P1: 240V AC, without transformer

##### ⑤ Color of lens

|           |           |
|-----------|-----------|
| G: Green  | Y: Yellow |
| R: Red *2 | A: Orange |
| W: White  | S: Blue   |

##### ⑥ Special product

Z9: Resisting water-soluble cutting oils and heat

Z8: With a contact protection cover

Z4: Resisting sulfuration gas

ZB: Meeting IP2X finger-protection standards

Notes: \*1 Products with no trigger action mechanism. These products cannot be used as emergency stop switches that comply with EN standards.

\*2 Button color of emergency stop illuminated switches are Red only.

• The manufacturing range varies depending on the model. For details, refer to the contents of this catalog.

- B: Black

#### ■ Ordering information

Specify the following:

1. Type number

For the CCC approved product, add the suffix **(CCC)** to the type number

Example: Pushbutton switch **AR22F0R-11B(CCC)**

#### Buzzers

##### DR22B 5 – E B

① ② ③ ④

##### ① Product category

DR22B: 22mm-dia. buzzer

##### ② Sound

- 5: Electronic sound
- 3: Magnetic sound
- 8: Electronic sound (IP54)

##### ③ Operating voltage

- A: 6V AC (Type “5”, “8”)
- 6: 6V DC (Type “5”, “8”)
- E: 12-24V AC/DC (Type “3” : 24V AC/DC)
- F: 35-48V AC/DC (Type “5”, “8”)
- H: 100-110V AC
- M: 200-220V AC
- 1: 100-110V DC (Type “5”, “8”)

##### ④ Color of head

- B: Black

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AR22 and DR22

### Ratings and specifications

#### ■ Lamp durability

| Lamp         | Durability         | Judgement criterion                                                                   |
|--------------|--------------------|---------------------------------------------------------------------------------------|
| LED          | Approx. 30000h     | When brightness is less than 50% of initial value                                     |
| Incandescent | Approx. 5000h (AC) | When the bulb burns out                                                               |
| Neon         | Approx. 5000h      | When a remarkable blackening appears in the glass bulb and the using becomes improper |

Note: The operating voltage for incandescent lamps is set at 80 to 90% of the lamp's rated voltage.

#### Estimated durability for LED lamps

Notes: • Durability at Ta=25°C  
• Durability is affected by temperature, humidity, and voltage fluctuation.

#### Incandescent lamp voltage characteristics

#### ■ Combination of lens color and LED or neon lamp luminous color

| Lens Color    | Code | LED or neon lamp   |            |
|---------------|------|--------------------|------------|
|               |      | Luminous color     | Type       |
| Green         | G    | Green              | APX510-■G  |
| Red           | R    | Red                | APX510-■R  |
| White         | W    | Orange             | APX510-■O  |
| Yellow        | Y    | Yellow             | APX510-■Y  |
| Orange *      | A    | Amber              | APX510-■A  |
| Blue          | S    | Blue               | APX510-■S  |
| Red (AR22VGF) | R    | Red                | AR9L002-ER |
|               |      | Orange (Neon lamp) | AR9N001-■A |

Notes: \* DR22F4M: LED lamp color is orange. (APX510-■O)  
• Replace the ■ mark by the lamp voltage code

### •Lens color

Replace the □ mark by the lens color code

| Color | Green | Red | White | Blue | Yellow | Orange |
|-------|-------|-----|-------|------|--------|--------|
| Code  | G     | R   | W     | S    | Y      | A      |

Note: AR22V5L type: Red, yellow only

### •Contact arrangements

Contact arrangements other than above are available

| Contact<br>arrangement | 1NO | 1NC | 1NO+1NC | 2NO | 2NC | 3NO |
|------------------------|-----|-----|---------|-----|-----|-----|
| Code                   | 10  | 01  | 11      | 20  | 02  | 30  |

| Contact<br>arrangement | 3NC | 2NO+2NC | 4NO | 4NC | 5NO | 5NC |
|------------------------|-----|---------|-----|-----|-----|-----|
| Code                   | 03  | 22      | 40  | 04  | 50  | 05  |

### Available numbers of contact blocks

| Operation                                 | Without transformer | With transformer |
|-------------------------------------------|---------------------|------------------|
| Momentary action                          | 5-contact block     | 3-contact block  |
| Alternate action<br>Push-lock, turn-reset | 3-contact block     | 2-contact block  |

### •Voltage

Replace the ■ mark by the lamp voltage code

| Transformer         |             | Code |              |
|---------------------|-------------|------|--------------|
|                     |             | LED  | Incandescent |
| Without transformer | 6V DC       | 6    | —            |
|                     | 6V AC       | A    | —            |
|                     | 5.5V AC/DC  | —    | 5            |
|                     | 12V AC/DC   | B    | —            |
|                     | 15V AC/DC   | C    | C            |
|                     | 20V AC/DC   | —    | D            |
|                     | 24V AC/DC   | E    | E            |
| With transformer    | 100-110V AC | H    | H            |
|                     | 115-127V AC | L    | L            |

### •Button color

Replace the □ mark by the button color code

| Color | Green | Red | White | Blue | Yellow | Orange | Black |
|-------|-------|-----|-------|------|--------|--------|-------|
| Code  | G     | R   | W     | S    | Y      | A      | B     |

Note: AR22V5R type: Red, yellow, black only

### •Contact arrangements

Contact arrangements other than above are available

| Contact arrangement | 1NO | 1NC | 1NO+1NC | 2NO | 2NC | 3NO | 3NC |
|---------------------|-----|-----|---------|-----|-----|-----|-----|
| Code                | 10  | 01  | 11      | 20  | 02  | 30  | 03  |

| Contact arrangement | 2NO+2NC | 4NO | 4NC | 5NO | 5NC | 3NO+3NC |
|---------------------|---------|-----|-----|-----|-----|---------|
| Code                | 22      | 40  | 04  | 50  | 05  | 33      |

### •Available numbers of contact blocks

|                  |                                           |
|------------------|-------------------------------------------|
| Momentary action | Alternate action<br>Push-lock, turn-reset |
| 6-contact block  | 4-contact block                           |

### •Symbol mark (For AR22FAR, FBR, EAR, EBR)

Replace the ■ mark by the symbol mark code

| Symbol mark     | ○     | I     | ⊕     | ⊖     | ⊕     | ⊖     | ⊕     | ⊖       |
|-----------------|-------|-------|-------|-------|-------|-------|-------|---------|
| Color of button | White | Black | White | Black | White | Black | Clear |         |
| Color of mark   | Red   |       | Green |       | Green |       | Black |         |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |           |                        |         |                                 |                          | Notes: • Operator position L: Left, C: Center, R: Right  
• (1) to (4): Contact block mounting position  
• ① – ②, ③ – ④: Contact block terminal No.

● Contact closed

## • Contact arrangements

Contact arrangements other than above are available

| Contact arrangement | 1NO | 1NC | 1NO+1NC | 2NO | 2NC | 3NO | 3NC |
|---------------------|-----|-----|---------|-----|-----|-----|-----|
| Code                | 10  | 01  | 11      | 20  | 02  | 30  | 03  |

| Contact arrangement | 2NO+2NC | 4NO | 4NC | 5NO | 5NC | 3NO+3NC |
|---------------------|---------|-----|-----|-----|-----|---------|
| Code                | 22      | 40  | 04  | 50  | 05  | 33      |

## • Available numbers of contact blocks

|                 |                                       |
|-----------------|---------------------------------------|
| Maintained      | Spring return<br>Spring/manual return |
| 6-contact block | 4-contact block                       |

## • Key removable positions

| Code               | A                                                                                   | B                                                                                   | C                                                                                   | D                                                                                   | E                                                                                   | F                                                                                   | G                                                                                   |

## • Position of contact block

## • Key code No.

Replace the ( ) mark with one of the following key code.  
A, B, C, D, E and F  
Standard key code is A.

## • Operator

Replace the □ mark by the cylinder key type code  
Standard type: Blank  
Long durability type: A

|                                                                                                                          |                                                                                                                                                                                        | With resistor unit | 100 to 110V DC                                       | <b>DR22B8-1B</b>                                                             |

Notes: • Intermittent/continuous sound selection (DR22B5, B8)  
See the "Short-circuit terminal" in the dimensions diagram on the 49 page, and select as follows:

- Short-circuit terminal mounted → Intermittent sound
- Short-circuit terminal not mounted → Continuous sound

- Sound volume adjustment (DR22B3)  
Use a flat-bladed screwdriver with a narrow tip to gently turn "Control knob" shown in the dimensions diagram on the 49 page, as follows.
- Clockwise → Increase sound pressure
- Counterclockwise → Decrease sound pressure

### Ball type without lock

Technical drawing of the cable gland assembly, showing a top view and a side view.

**Top View:** A square gland with four directions labeled 1, 2, 3, and 4. The gland has a central hole and four side holes.

**Side View:** Shows the gland being inserted into a panel. The gland has a terminal screw (M3,5) and a nut. The panel thickness is indicated as 1 to 6. The gland has a packing ring. The overall length of the gland is 68.5. The distance from the panel to the end of the gland is approximately 80. The distance from the panel to the center of the gland is approximately 70. The angle of the side holes is 20°.

Notes \* The contact arrangement is operable in the designated direction by pulling the lock piece in the central position with the fingers. The lock piece will return automatically and locks when the lock piece is released in the central position.  
The lock piece locks in the central position only.

### Notes on use

#### Notes on use

##### ■ Fit two sizes of panel cutout holes

\* The unique nut with a step allows switch to be mounted in either 22.3mm- or 25.5mm-dia. holes as shown in Fig. 1 without any extra adapter.

**Fig. 1 Panel cutout**

The switch mounted as a  $\phi 22\text{mm}$  diameter unit.

The switch mounted as a  $\phi 25\text{mm}$  diameter unit.

Note: \* If key-washer or legend plate are not used, 3.2mm-wide location holes need not be cutout.

##### ■ Detaching contact block from the operator

While keeping the white release arm pressed with one finger, pull-out the contact block in the direction by the arrow.

**Fig. 2 Detaching contact block from the operator**

##### ■ Mounting operator to panel

① In a 22.3mm-dia. panel cutout hole  
Insert the operator into the cutout hole from the panel front as shown in the Fig. 3.  
Then, fit section "A" of the AR9A004 wrench from behind the panel and secure the operator with nut. (See page 106 for the wrench)

**Fig. 3 Mounting an operator in a 22.3mm-dia. hole**

Note: Recommended tightening torque is from 1 to 1.5N·m

② In a 25.5mm-dia. panel cutout hole

As shown in Fig. 4, with the nut step-out side oriented to the panel, use the wrench to tighten the nut and secure the operator.

**Fig. 4 Mounting a operator in a 25.5mm-dia. hole**

Note: 1. Recommended tightening torque is from 1 to 1.5N·m  
2. Ensure that the step-out portion of the nut is correctly fitted in the cutout hole.

For easier mounting in the 25.5mm-dia. hole, the AR9Y718 adapter is also available separately.

**Fig. 5 Mounting with an adapter and locking nut**

##### ■ Mounting contact block to the operator

As shown in Fig. 6, align the protruding part of the contact block release arm with the operator groove at the  $\nabla$  mark. Then, insert the contact block into the operator until it clicks.

**Fig. 6 Mounting the contact block to the operator**

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AR22 and DR22

### Notes on use

#### ■ VG type panel mounting

As shown in the illustration, remove the live section cover, nut, and washer, and insert the main unit into a panel which has been cut from the front side of the panel. Place the type number AR22 facing upward, and secure the main unit with the nut using a wrench AHX701. The appropriate tightening torque is 1 to 1.5N·m.

Fig. 7

#### ■ Joy stick selector switch mounting on panel

- (1) Twist and remove the ball from the operator.
- (2) Loosen the nut and remove the switch if the switch is provided with a lock.
- (3) If no locking nut is provided, loosen the nut and remove the switch after the packing part (A) shown in the illustration is stretched to the lever groove.
- (4) Mount the switch in the order opposite to removal. Set the packing to the notch on the lever as a reference. Do not separate the nut from the packing.
- (5) Use a torque wrench AR9A006 to tighten the nut from the front of the panel.

Note: Recommended tightening a torque is 1 to 1.5N·m.

Fig. 8

#### ■ Buzzer mounting on panel

- (1) Remove the nut, and insert the main unit into the mounting hole from the back of the panel.
- (2) Tighten the buzzer using a wrench AR9A006 from the front side of the panel.

Note:

- Recommended tightening torque is 1 to 1.5N·m.
- Electronic sound (IP54) type has a all-in-one unit with nut and cap.

#### ■ Applicable panel thickness

The AR22/DR22 series switches are mountable to panels with thickness as given in Table below.

| Mounting condition  |                                                 | Applicable panel thickness (mm) |
|---------------------|-------------------------------------------------|---------------------------------|
| Without accessories |                                                 | 1 to 6                          |
| With accessories    | Protective cover, water-proof cap, legend plate | 1 to 4                          |
|                     | Key washer                                      | without hole 1 to 4             |
|                     |                                                 | with hole 1 to 5                |
|                     | Adapter for a 25.5mm-dia. hole                  | 1 to 5.5                        |

- When using a joy stick selector switch and buzzer  
The applicable panel thickness is 1 to 6mm. Five 1.3mm packings (single-piece type) are included as standard equipment. Insert as many as required depending on the panel thickness, using the following table as a guide. When using a key washer, legend plate, or adapter, their thickness will have to be added to the values in the guide.

| Panel thickness (mm)<br>(plus key washer, legend plate) | Number of packings<br>(reference) |
|---------------------------------------------------------|-----------------------------------|
| 1.0 to 1.6                                              | 5                                 |
| 1.6 to 2.8                                              | 4                                 |
| 2.8 to 3.8                                              | 3                                 |
| 3.8 to 4.8                                              | 2                                 |
| 4.8 to 6.0                                              | 1                                 |

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AR22 and DR22

### Notes on use

#### ■ Minimum mounting space, mm

##### (1) Minimum mounting space

Fig. 10

- Notes:
- \*1 AR22M0□, M5□, V5□, V0□, V2□, V7R, VG□: 42mm  
AR22M3R, M8R: 49mm  
AR22Q2R, WR, W0R, WY, WCY: 40mm
  - \*2 When mounting contact blocks at 30mm pitch, use it circuit of 380V or less.
  - \*3 Short body with transformer types: 50mm.
  - \*4 Rectangular types: 36.5mm (except for short body without transformer types).
  - \*5 Short body without transformer types: 60mm.
  - \*6 Rectangular short body without transformer types: 60mm.
  - \*7 This dimension applies when transformer units or contact blocks face each other.
  - \*8 This dimension applies when transformer unit or contact block is mounted on only one side.

When mounting operators on a panel, orient all ▽ marks on the operator upwards.  
(The operator release arms are oriented upwards.) This aligns the terminals of all contact blocks, thus making wiring easy.

##### (2) Detaching contact blocks from operators

As shown in Fig. 9, insert a flat-head screw driver into the groove of the white release arm on the contact block. Then, while inserting the driver in hole A of the operator base, lower the driver grip and take out the contact block.

Fig. 11

Note: Use a flat head screwdriver as shown at the right.

#### ■ Products with blue and green LEDs

The LED devices on products with high-brightness (blue and green) LEDs are very sensitive to static electricity. When replacing LED lamps do not allow static electricity to come into direct contact with the metal frame on the upper side of the LED lamp. The LED device may be damaged if this part is subjected to static electricity. When installing or removing an LED lamp, it is recommended that you use the lamp changer (AHX790).

Fig. 12

#### ■ Wiring

(1) The terminal screws are M3.5 pan head screws. Solid wires, stranded wires, or crimp terminals can be connected.

Fig. 13

(2) Two crimp terminals can be used by putting one of them on top of the other. If fork-type crimp terminals are used in the horizontal direction, however, use ones as shown in the figure below. (i.e., Toei Tanshi's F2-3.5S or an equivalent).

Fig. 14

- (3) The terminal washers are a self-lifting type.
- (4) Tighten the terminal screws to a tightening torque of 0.8 to 1N·m.
- (5) Keep the terminals free of external force while wiring or after wiring, or operational failures may result.
- (6) Do not use screws other than the provided terminal screws.

##### Notes:

- If solid wires are connected to the lamp terminals in the horizontal direction (on the side), be sure to insert the solid wires into the square washers.
- Terminal layout., see page 54
- See page 53 for the wiring of the joy stick selector switch and VG type.

#### ■ LED Indicator

##### (1) LED Lamp Malfunctioning

The LED lamp is lit by a very small level of current (approximately 0.01mA). Therefore, it may be erroneously lit by a leaking current from the surge absorption circuit or semiconductor circuit or due to stray capacitance between cables. In that case, provide a countermeasure (e.g., connect a resistor in parallel with the LED lamp).

##### • Countermeasure for Malfunctioning

The LED lamp malfunctions can be prevented by connecting a shunt resistor (R) or CR elements (a capacitor and resistor) in parallel with the LED lamp terminal. The resistance and CR values vary depending on the model and the operating conditions.

Fig. 15

##### Example 1

- 24V DC  
R: 10kΩ (0.5W)
- 24V AC  
R: 2kΩ (2W)

##### Example 2

- 100V AC  
C: 0.33μF (250V AC)  
R: 120Ω (0.25W)
- 220V AC  
C: 0.1μF (250V AC)  
R: 120Ω (0.25W)

##### (2) Incoming surge

High luminance LED products use an element sensitive to static electricity. They may not be lit by an abnormal voltage like surge. Please note it.

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AR22 and DR22

### Notes on use

#### ■ Joy stick selector switch

##### • Screw terminal wiring

- (1) The terminals use M3.5 pan head screws. Use crimp terminals to wire the terminals.

Fig. 16

- (2) The terminal washers are a self-lifting type.
- (3) Tighten the terminal screws to a tightening torque of 0.8 to 1.0N·m. Keep the terminals free of external force during and after wiring, or operational failures may result.

##### • Solder (tab terminal) wiring

- (1) Pay attention to the following items when soldering the terminals.

Use a soldering iron with a power consumption of 30W.  
Use resin-core solder.

If a 30W soldering iron is used, finish soldering the terminals within five seconds. If a 20W soldering iron is used, finish soldering the terminals within 10 seconds. Make sure that the soldering iron tip length is at least 20mm long. Do not apply external force to the terminals. Because lead-free solder's melting point is slightly high, soldering work may be difficult. Use a soldering iron whose tip is rather large or whose calorie is rather high.

- (2) When using adjacent terminals, use insulation tubes to prevent the terminals from short-circuiting. Utmost attention must be paid to the solder terminals if especially thick wires are used or if a large quantity of solder is used.
- (3) Connectable wires  
Solid wire: 2 wires, 0.8mm dia. max.  
Stranded wire: 1 wire, 0.75mm<sup>2</sup> max.
- (4) Use the 110 (2.8mm) series receptacle for the tab terminals.
- (5) Wire the tab terminals with the contact unit connected to the main unit.

##### • Operation

Operation shall be made after the joy stick operation lever is surely returned to the center position. Do not apply excessive force to the operation lever. The maximum permissible force is 100N.

##### • Use of contact blocks

If NO and NC contacts are used in the same contact block, check that there is no difference in potential. Do not connect different type of power source different in type.

#### ■ Buzzer

##### • Noise

If the application circuit is likely to generate excessively strong noise, connect a surge absorber (e.g., FUJI's ENC390D, provided that the switch is a 24V type) in parallel with the buzzer.

##### • Place of Use

The buzzer does not have a drip-proof construction. Do not use the buzzer in places where oil or water is sprayed or where dust accumulates. If the buzzer is a splash-proof type, it will resist sprays of water.

Do not use the buzzer in places that are subject to an excessive amount of corrosive gas.

Note that the buzzer is likely to sound erroneously due to leakage current or the like.

#### ■ AR22VG type

- As shown in Fig. 17 (a), engage the tip of the wrench (AHX8003) with the groove in the center to mount or remove the locking unit. The recommended tightening torque is 0.6 to 1N·m.
- As shown in Fig. 17 (b), insert the lamp changer (AHX790) and press the lamp changer to mount or remove the lamp. Turn the lamp changer clockwise when mounting the lamp and counterclockwise when removing it.

Fig. 17

Note: The lamp and neon lamp are special models for the AR22VGF. Use only these special lamps for replacement.

##### • Wiring

The terminals use M3.5 pan head screws. Use crimp terminals for wiring and cover the crimp terminals with insulation tubes.

Fig. 18

- The terminal washers are a self-lifting type.
- Tighten the terminal screws to a torque of 0.8 to 1N·m. Keep the terminals free of external force during and after wiring, or operational failures may result.
- Wiring precautions
  - (1) Use of round-type crimp terminal
- Remove the live section cover, and half-tighten to the point parallel with the terminal rib white marks in the direction of the arrows as shown in the illustration below.
- Mount the live section cover and tighten the terminals securely.

Fig. 19

As shown in the illustration below, mount the live section cover so that the mounting legs of the cover engage with the concave parts of the main unit.

Fig. 20

- (2) If fork-type crimp terminals are used, wiring will be possible without removing the live section cover.

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AR22 and DR22

### Notes on use

#### ■ Operation

- Do not use a hitting or bouncing action to operate the button, or the switch may break. Always operate the switch by hand. Do not pull mushroom head pushbuttons or alternate buttons other than the Q2.
- Do not rotate the selector ring type while the button is pressed, or the mechanism may break.
- The control type incorporates make-before-break contacts.
- Prepare a protection circuit for the application.
- The dial of the selector switch rotates with a light force. Do not apply force in excess of 1N·m. Please do not pull out or insert the key forcibly.
- To release the lock of the push-lock type, rotate the button clockwise as shown by the arrow. Do not pull the button, or the latch may break and the lock may fail to work.
- Do not lock the emergency stop pushbutton switch and emergency stop illuminated pushbutton switch in use. Push and lock the switch in case of an emergency only.

#### ■ Terminal layout

Fig. 21

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AR30 and DR30

### General information

The full range of the contact blocks and transformer units suitable for the AR22 and DR22 series may also be fitted to the AR30 and DR30 series.

#### ■ Features

##### Quick-replacement contact blocks and transformer units

The snap-on construction makes replacement and addition of contact blocks and transformer units very simple and straightforward.

##### Oil-and dust-proof operator module construction

The protection level of the AR30/DR30 operator modules conforms to IEC Standard IP65. The special seals protect the operator modules and switch mechanisms against oil, dust, and grime, thus ensuring high performance in dusty and moist environments.

#### Miniaturization

- Selector switches with 1NO+1NC: 41mm deep
- Pilot lights: 34mm deep
- The transformer now occupies far less space.

#### Self-cleaning contacts

All the contacts are double break type and feature self-cleaning action. Every time the switch is operated, the contact surfaces are wiped with a sliding movement, thus ensuring high contact reliability even at low voltage and small current levels (5V, 5mA).

#### Metal nut

Safer model with metal nut is also available

#### Illuminated pushbuttons

#### Pushbuttons

#### Pilot lights

#### Selectors

#### Wiring

- Wiring from two directions is possible.
- Wiring in both vertical and lateral directions facilitates wiring in narrow spaces.
- Color coding of contact blocks makes wiring easy.  
1NO: Blue, 1NC: Red  
Lamp terminal and transformer unit: Black

#### Safety

- A terminal cover is provided, assuring safety and security.
- FUJI's original Trigger Action mechanism is used in the emergency stop pushbuttons. They are suitable for emergency stop and safety. This mechanism prevents the contacts from moving until the button is pushed and locked.

#### Protection

- Excellent oil-tight construction (IP65) of the operator.
- Closure of the contact block has been improved.

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AR30 and DR30

### Part number system

#### Illuminated pushbuttons

**AR30 E0L – 10 E3 R** 

① ② ③ ④ ⑤ ⑥

##### ① Product category

AR30: 30mm-dia. illuminated pushbutton

30mm-dia. emergency stop illuminated pushbutton

##### ② Operator

• Illuminated pushbutton

E0L: Extended round head

E5L: Extended round head (Alternate)

G4L: Extended with transparent full guard (24mm dia.)

G9L: Extended with transparent full guard (24mm dia. alternate)

G2L: Extended with full guard (24mm dia. with openings)

G7L: Extended with full guard (24mm dia. with openings, alternate)

G3L: Extended with full guard (24mm dia.)

G8L: Extended with full guard (24mm dia. alternate)

V5L: Push-lock, turn-reset (40mm dia. with white arrow) \*1

Q7L: Push-pull

• Emergency stop illuminated pushbutton

V0L: Push-lock, turn-reset (Soft-touch 40mm dia. with white arrow)

V2L: Push-lock, turn-reset (40mm dia.)

##### ③ Contact arrangement

10: 1NO 30: 3NO

01: 1NC 03: 3NC

11: 1NO+1NC 33: 3NO+3NC

20: 2NO 40: 4NO

02: 2NC 04: 4NC

22: 2NO+2NC 50: 5NO

05: 5NC

##### ④ Lamp voltage

•Incandescent lamp

S4: 5.5V AC/DC, without transformer

C4: 15V AC/DC, without transformer

D4: 20V AC/DC, without transformer

E4: 24V AC/DC, without transformer

H4: 100-110V AC, with transformer

L4: 115-127V AC, with transformer

M4: 200-220V AC, with transformer

Q4: 230-254V AC, with transformer

S4: 350-380V AC, with transformer

T4: 400-440V AC, with transformer

V4: 480V AC, with transformer

W4: 500-550V AC, with transformer

•LED lamp

A3: 6V AC, without transformer

B3: 6V DC, without transformer

B3: 12V AC/DC, without transformer

C3: 15V AC/DC, without transformer

E3: 24V AC/DC, without transformer

H3: 100-110V AC, with transformer

L3: 115-127V AC, with transformer

M3: 200-220V AC, with transformer

Q3: 230-254V AC, with transformer

S3: 350-380V AC, with transformer

T3: 400-440V AC, with transformer

V3: 480V AC, with transformer

W3: 500-550V AC, with transformer

##### ⑤ Color of lens

G: Green

Y: Yellow

R: Red \*2

A: Orange

W: White

S: Blue

##### ⑥ Special product

Z9: Resisting water-soluble cutting oils and heat

Z8: With a contact protection cover

Z4: Resisting sulfuration gas

ZB: Meeting IP2X finger-protection standards

ZM: Metal nut

Notes: \*1 Products with no trigger action mechanism. These products cannot be used as emergency stop switches that comply with EN standards.

\*2 Button color of emergency stop illuminated switches are Red only.

• The manufacturing range varies depending on the model. For details, refer to the contents of this catalog.

## AR30 and DR30

### Part number system

#### Pushbuttons

#### AR30 E0R – 10 R

① ② ③ ④ ⑤ ⑥

##### ① Product category

AR30: 30mm-dia. pushbutton  
30mm-dia. emergency stop pushbutton

##### ② Operator

- Pushbutton switch
- F0R: Flush round head
- F5R: Flush round head (Alternate)
- E0R: Extended round head
- E5R: Extended round head (Alternate)
- FAR: Flush round head (Symbol mark type)
- FBR: Flush round head (Symbol mark type, alternate)
- EAR: Extended round head (Symbol mark type)
- EBR: Extended round head (Symbol mark type, alternate)
- M0R: Mushroom head (40mm dia.)
- M5R: Mushroom head (40mm dia. Alternate)
- M4R: Mushroom head (29mm dia.)
- G1R: Extended with full guard (24mm dia.)
- G6R: Extended with full guard (24mm dia. Alternate)
- GPR: Pin lock
- G0R: Extended with half guard
- G5R: Extended with half guard (Alternate)
- M3R: Mushroom head with full guard (40mm dia.)
- M8R: Mushroom head with full guard (40mm dia. Alternate)
- GSR: Mushroom head with full guard (35mm dia. metal nut)
- B0R: Giant head
- B1R: Giant head with guard
- B2R: Giant head with full guard
- B3R: Giant head with full guard
- S1R: Pushbutton with selector ring (2-position)
- S2R: Pushbutton with selector ring (2-position)
- S3R: Pushbutton with selector ring (2-position)
- S6R: Pushbutton with selector ring (2-position)
- N0R: Push, turn-lock
- V5R: Push-lock, turn-reset (40mm dia. with white arrow) \*1
- FVR: Pushbutton with emergency operating cap
- Emergency stop pushbutton switch
- V0R: Push-lock, turn-reset (Soft-touch 40mm dia. with white arrow)
- V2R: Push-lock, turn-reset (40mm dia.)
- V1R: Push-lock, turn-reset (Soft-touch 65mm dia. with white arrow)
- Q2R: Push-lock, pull-reset (35mm dia.)

##### ⑥ Special product

Z9: Resisting water-soluble cutting oils and heat  
Z8: With a contact protection cover  
Z4: Resisting sulfuration gas  
ZB: Meeting IP2X finger-protection standards  
ZM: Metal nut

Notes: \*1 Products with no trigger action mechanism. These products cannot be used as emergency stop switches that comply with EN standards.

\*2 Button color of emergency stop switches are Red only.

• The manufacturing range varies depending on the model. For details, refer to the contents of this catalog.

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AR30 and DR30

### Part number system

#### Selector and illuminated selector switches

**AR30 PL – 2** ☐ **10** **E3** **G** ☐ ☐

① ② ③ ④ ⑤ ⑥ ⑦ ⑧ ⑨

#### ① Product category

AR30: 30mm dia. selector switch and illuminated selector switch

#### ② Operator

•Selector switch

PR: Knob

PCR: Knob operated control type

WR: Lever

WCR: Lever operated control type

JR: Key

JCR: Key operated control type

JAR: Key (Long durability)

•Illuminated selector switch

PL: Knob

#### ③ Operation

2: 2-position, maintained

0: 2-position, spring return

3: 3-position, maintained

6: 3-position, spring/manual return (Left to center)

7: 3-position, spring/manual return (Right to center)

1: 3-position, spring return

4: 4-position, maintained (For AR30PCR, WCR)

5: 5-position, maintained (For AR30PCR, WCR)

#### ④ Key removable position

A: Left

B: Left and right

C: Left, right and center

D: Right

E: Center

F: Right and center

G: Left and center

#### ⑤ Contact arrangement

10: 1NO

30: 3NO

01: 1NC

03: 3NC

11: 1NO+1NC

33: 3NO+3NC

20: 2NO

40: 4NO

02: 2NC

04: 4NC

22: 2NO+2NC

44: 4NO+4NC

50: 5NO

05: 5NC

Note: Control type: See page 04/85 to 04/87

#### ⑥ Lamp voltage

•Incandescent lamp

54: 5.5V AC/DC, without transformer

C4: 15V AC/DC, without transformer

D4: 20V AC/DC, without transformer

E4: 24V AC/DC, without transformer

H4: 100-110V AC, with transformer

L4: 115-127V AC, with transformer

M4: 200-220V AC, with transformer

Q4: 230-254V AC, with transformer

S4: 350-380V AC, with transformer

T4: 400-440V AC, with transformer

V4: 480V AC, with transformer

W4: 500-550V AC, with transformer

•LED lamp

A3: 6V AC, without transformer

63: 6V DC, without transformer

B3: 12V AC/DC, without transformer

C3: 15V AC/DC, without transformer

E3: 24V AC/DC, without transformer

H3: 100-110V AC, with transformer

L3: 115-127V AC, with transformer

M3: 200-220V AC, with transformer

Q3: 230-254V AC, with transformer

S3: 350-380V AC, with transformer

T3: 400-440V AC, with transformer

V3: 480V AC, with transformer

W3: 500-550V AC, with transformer

#### ⑦ Color of knob

B: Black (Not available for illuminated selector switch)

G: Green

R: Red

W: White (Not available for selector switch)

Y: Yellow (Not available for selector switch)

A: Orange (Not available for selector switch)

S: Blue (Not available for selector switch)

#### ⑧ Key type No.

A, B, C, D, E or F

("A" is standard)

#### ⑨ Special product

Z9: Resisting water-soluble cutting oils and heat

Z8: With a contact protection cover

Z4: Resisting sulfuration gas

ZB: Meeting IP2X finger-protection standards

ZM: Metal nut

Note: • The manufacturing range varies depending on the model. For details, refer to the contents of this catalog.

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AR30 and DR30

### Part number system

#### Pilot lights

**DR30 D0L – E3 W** ☐

① ② ③ ④ ⑤

#### ① Product category

DR30: 30mm dia. pilot light

#### ② Lens

D0L: Dome

E3L: Extended round

K0L: Faceted

D1L: Dome with dimmer control

F4M: Flush square (34mm sq. transparent lens)

F4N: Flush rectangular (Transparent lens)

M4M: Flush square (40mm sq. transparent lens)

#### ③ Lamp voltage

•Incandescent lamp

54: 5.5V AC/DC, without transformer

C4: 15V AC/DC, without transformer

D4: 20V AC/DC, without transformer

E4: 24V AC/DC, without transformer

H4: 100-110V AC, with transformer

L4: 115-127V AC, with transformer

M4: 200-220V AC, with transformer

Q4: 230-254V AC, with transformer

S4: 350-380V AC, with transformer

T4: 400-440V AC, with transformer

V4: 480V AC, with transformer

W4: 500-550V AC, with transformer

FQ: 50V DC, with resistor\*

HQ: 110V DC, with resistor\*

MQ: 220V DC, with resistor\*

•LED lamp

A3: 6V AC, without transformer

63: 6V DC, without transformer

B3: 12V AC/DC, without transformer

C3: 15V AC/DC, without transformer

E3: 24V AC/DC, without transformer

H3: 100-110V AC, with transformer

L3: 115-127V AC, with transformer

M3: 200-220V AC, with transformer

Q3: 230-254V AC, with transformer

S3: 350-380V AC, with transformer

T3: 400-440V AC, with transformer

V3: 480V AC, with transformer

W3: 500-550V AC, with transformer

H7: 110V DC, with resistor unit

FR: 50V DC, with resistor\*

HR: 110V DC, with resistor\*

MR: 220V DC, with resistor\*

•LED unit

(For DR30F4M, F4N, M4M type)

65: 6V DC, without transformer

25: 12V AC, without transformer

B5: 12V AC/DC, without transformer

E5: 24V AC/DC, without transformer

H5: 100-110V AC, with transformer

L5: 115-127V AC, with transformer

M5: 200-220V AC, with transformer

Q5: 230-254V AC, with transformer

S5: 350-380V AC, with transformer

T5: 400-440V AC, with transformer

V5: 480V AC, with transformer

W5: 500-550V AC, with transformer

HE: 110V DC, with resistor unit

Note: \* DR30D0L, K0L type only

#### ④ Color of lens or color plate

G: Green

Y: Yellow

R: Red

A: Orange

W: White

S: Blue

#### ⑤ Special product

Z9: Resisting water-soluble cutting oils and heat

Z4: Resisting sulfuration gas

ZB: Meeting IP2X finger-protection standards

ZM: Metal nut

Note: \* The manufacturing range varies depending on the model. For details, refer to the contents of this catalog.

Pushbuttons/Selectors/Pilot Lights/Buzzers

**AR30 and DR30**

**Part number system**

Joy stick selector switches

**AR30A 0 N – A0A0 B**

① ②③ ④ ⑤

① **Product category**

AR30A: 30mm-dia. Joy stick selector switch

② **Handle**

- 0: Ball type (without lock, manual return)
- 1: Ball type with lock (manual return)
- 2: Rubber cap type (without lock, manual return)
- 5: Ball type (without lock, spring return)
- 6: Ball type with lock (spring return)
- 7: Rubber cap type (without lock, spring return)

③ **Terminal**

- N: Screw
- H: Solder/tab

④ **Contact arrangement**

| Contact arrangement |            | Blank | 1NO | 1NC | 1NO+1NC | 2NO | 2NC | 2NO+2NC |
|---------------------|------------|-------|-----|-----|---------|-----|-----|---------|
| Code                | Screw      | 0     | A   | B   | 1       | D   | E   | –       |
|                     | Solder/tab | 0     | –   | –   | 1       | –   | –   | 2       |

Operating direction code of contacts

- 1: Upper
- 2: Right
- 3: Lower
- 4: Left

Ex. AR30A0N-A 0 A 0 B  
1 2 3 4

⑤ **Handle color**

- B: Black

■ **Ordering information**

Specify the following:

1. Type number

For the CCC approved product, add the suffix **(CCC)** to the part number

Example: Pushbutton switch AR30F0R-11B**(CCC)**

Buzzers

**DR30B 5 – E B**

① ② ③ ④

① **Product category**

DR30B: 30mm-dia. buzzer

② **Sound**

- 5: Electronic sound
- 6: Electronic sound (economy)
- 0: Magnetic sound
- 8: Electronic sound (IP54)

③ **Operating voltage**

- A: 6V AC (Type “5”, “8”)
- 6: 6V DC (Type “5”, “8”)
- E: 12-24V AC/DC (Type “6” : 24V DC)
- F: 35-48V AC/DC (Type “5”, “8”)
- G: 24V AC (Type “6”)
- H: 100-110V AC
- M: 200-220V AC
- 1: 100-110V DC (Type “5”, “8”)

④ **Color of head**

- B: Black

## AR30 and DR30

### Ratings and specifications

#### ■ Lamp durability

| Lamp         | Durability         | Judgement criterion                               |
|--------------|--------------------|---------------------------------------------------|
| LED          | Approx. 30000h     | When brightness is less than 50% of initial value |
| Incandescent | Approx. 5000h (AC) | When the bulb burns out                           |

Note: The operating voltage for incandescent lamps is set at 80 to 90% of the lamp's rated voltage.

#### Estimated durability for LED lamps

Notes: • Durability at  $T_a=25^{\circ}\text{C}$   
• Durability is affected by temperature, humidity, and voltage fluctuation.

#### Incandescent lamp voltage characteristics

#### ■ Combination of lens color and LED luminous color

# Illuminated Pushbuttons

## AR30

### •Lens color

Replace the  mark by the lens color code

| Color | Green | Red | White | Blue | Yellow | Orange |
|-------|-------|-----|-------|------|--------|--------|
| Code  | G     | R   | W     | S    | Y      | A      |

Note: AR30V5L type: Red, yellow only

### •Contact arrangements

Contact arrangements other than above are available

| Contact arrangement | 1NO | 1NC | 1NO+1NC | 2NO | 2NC | 3NO |
|---------------------|-----|-----|---------|-----|-----|-----|
| Code                | 10  | 01  | 11      | 20  | 02  | 30  |

| Contact arrangement | 3NC | 2NO+2NC | 4NO | 4NC | 5NO | 5NC | 3NO+3NC |
|---------------------|-----|---------|-----|-----|-----|-----|---------|
| Code                | 03  | 22      | 40  | 04  | 50  | 05  | 33      |

Note: AR30Q7L type: 1NO + 1NC only

### Available numbers of contact blocks

| Operation                                 | Without transformer | With transformer |
|-------------------------------------------|---------------------|------------------|
| Momentary action                          | 6-contact block     | 4-contact block  |
| Alternate action<br>Push-lock, turn-reset | 3-contact block     | 2-contact block  |

### •Contact operation (AR30Q7L)

| Contact block |      | Button position        |      |      |
|---------------|------|------------------------|------|------|
| No.           | Type | Pull                   | Free | Push |
| (1)           | NC   | <div><div></div></div> |      |      |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

Notes: • Operator position L: Left, C: Center, R: Right

• (1) to (4): Contact block mounting position

• ① – ②, ③ – ④: Contact block terminal No.

● Contact closed

### • Contact arrangements

Contact arrangements other than above are available

| Contact arrangement | 1NO | 1NC | 1NO+1NC | 2NO | 2NC | 3NO | 3NC |
|---------------------|-----|-----|---------|-----|-----|-----|-----|
| Code                | 10  | 01  | 11      | 20  | 02  | 30  | 03  |

| Contact arrangement | 2NO+2NC | 4NO | 4NC | 5NO | 5NC | 3NO+3NC | 4NO+4NC |
|---------------------|---------|-----|-----|-----|-----|---------|---------|
| Code                | 22      | 40  | 04  | 50  | 05  | 33      | 44      |

### • Available numbers of contact blocks

|                 |                                       |
|-----------------|---------------------------------------|
| Maintained      | Spring return<br>Spring/manual return |
| 8-contact block | 4-contact block                       |

### • Key removable positions

| Code               | A                                                                                   | B                                                                                   | C                                                                                   | D                                                                                   | E                                                                                   | F                                                                                   | G                                                                                   |

### • Position of contact block

### • Key code No.

Replace the ( ) mark with one of the following key code.

A, B, C, D, E and F

Standard key code is A.

### • Operator

Replace the □ mark by the cylinder key type code

Standard type: Blank

Long durability type: A

## ■ Selector switches (control type)

### 3-position

# Illuminated Selector Switches

## AR30

- Replace the ■ mark by the following lamp voltage code

| Transformer | Voltage     | Code |              |
|-------------|-------------|------|--------------|
|             |             | LED  | Incandescent |
| Without     | 5V AC/DC    | —    | 5            |
|             | 6V DC       | 6    | —            |
|             | 6V AC       | A    | —            |
|             | 12V AC/DC   | B    | —            |
|             | 15V AC/DC   | C    | C            |
|             | 20V AC/DC   | —    | D            |
|             | 24V AC/DC   | E    | E            |
| With        | 100-110V AC | H    | H            |
|             | 115-127V AC | L    | L            |
|             | 200-220V AC | M    | M            |
|             | 230-254V AC | Q    | Q            |
|             | 350-380V AC | S    | S            |
|             | 400-440V AC | T    | T            |
|             | 480V AC     | V    | V            |
|             | 500-550V AC | W    | W            |

- Replace the □ mark by the following knob color code

| Color | Green | Red | White | Blue | Yellow | Orange |
|-------|-------|-----|-------|------|--------|--------|
| Code  | G     | R   | W     | S    | Y      | A      |

- Up to 4-contact of contact arrangement can be made.  
Available numbers of contacts are as follow.

| No. of position | Operation            | Without transformer | With transformer |
|-----------------|----------------------|---------------------|------------------|
| 2-position      | Maintained           | 6-contact           | 4-contact        |
|                 | Spring return        | 3-contact           | 2-contact        |
| 3-position      | Maintained           | 6-contact           | 4-contact        |
|                 | Spring/manual return | 3-contact           | 2-contact        |

### Notes on use

#### Notes on use

##### ■ Panel cutout hole

Fig. 1 Panel cutout hole dimensions, mm

Note : If key-washer or legend plate are not used, 4.8mm-wide, location holes shown in Fig. 1 need not be cutout.

##### ■ Mounting operator to panel

##### 1. Pushbutton with a round bezel (ordinary mounting)

Insert the operator into the cutout hole from the back of the panel, and tighten the nut with the AHX001 wrench from the front of the panel to secure the operator as shown in Fig.2.

Fig. 2 Pushbutton with a round bezel

Note : Recommended tightening torque is from 1.5 to 2N·m.

##### 2. AR30V0R, V0L, V2R, V2L, V5R, V5L

- (1) The button is removed after loosening the center button by inserting the end of the AR9A002 tightening wrench or the AR9A005 wrench (enclosed with pushbutton) into the holes in the center button and turning counterclockwise, as shown in Fig.3.
- (2) Attach the operator in the same manner as described in step 1.

Fig. 3

The center button can be attached or removed using the C portion of the AR9A004 tightening wrench as well.

Insert the operator into the cutout hole from the back of the panel, and as shown in Fig.4, insert the pushbutton into the operator cylinder while aligning the grooves inside the pushbutton with the protrusions on the operator.

Fig. 4 Setting pushbutton to operator cylinder

AF95-414

##### 3. AR30WR, WCR

- (1) As shown in the following figure, insert the tip of a flathead screwdriver into the selector tip groove. Rotate the screwdriver in the direction indicated by the arrow until the selector tip rises, and draw out the knob.
- (2) Attach the operator in the same manner as described in step 1.
- (3) Insert the knob, with the selector tip in the floated state, into the original position of the rotation tube, and push the selector tip into place.

Fig. 5

##### 4. AR30M0R, M4R, M5R, B0R, Q7L

- (1) Loosen the button by hand.
- (2) Attach the operator in the same manner as described in step 1.
- (3) Screw in the button by hand, making sure that the button is screwed in all the way. (Recommended tightening torque: 0.3 to 0.5 N·m)

Fig. 6

##### 5. AR30M3R, M8R, B1R, B2R and B3R

The outer circumference of the nut is threaded, so be careful not to cut your hand on it.

- (1) Loosen and remove the guard ring by hand.
- (2) Loosen and remove the button and nut by hand.
- (3) Insert the operator into the cutout hole from the back of the panel, and tighten the nut to secure it in place. (Recommended tightening torque: 0.3 to 0.5 N·m)
- (4) Screw in the button by hand, making sure that it is screwed in all the way. (Recommended tightening torque: 0.3 to 0.5 N·m)
- (5) Loosen and remove the guard ring by hand. (Recommended tightening torque: 1.5 to 2.5 N·m)

Fig. 7

# Pushbuttons/Selectors/Pilot Lights

## AR30 and DR30

### Notes on use

#### 6. AR30N0R, V1R, Q2R

- (1) Loosen and remove the screw on the side of the button, taking care not to loosen the screw.
- (2) Attach the operator in the same manner as described in step 1.
- (3) Attach and secure the button in place with the screw, making sure that the head of the screw does not protrude from the side.
- (4) Recommended tightening torque: N0R, V1R 0.5 to 1.0N•m  
Q2R 0.3 to 0.5N•m

Fig. 8

#### 7. AR30GSR

- (1) Insert the tips of the AR9A001 wrench into the indentations around the button center, and turn the wrench to loosen and remove the button.
- (2) Loosen and remove the guard ring by hand.
- (3) Insert the switch operator into the cutout hole from the back of the panel, and secure it with the guard ring from the front of the panel. (Recommended tightening torque: 1.5 to 2.5 N•m)
- (4) Attach and secure the button with the AR9A001 wrench. (Recommended tightening torque: 0.3 to 0.5 N•m)

Fig. 9

#### 8. DR30F4M, F4N, M4M

Insert the pilot lights from the front of the panel and fix it with the AHX536 tightening wrench from the back of the panel.

- (1) Recommended tightening torque: 1 to 1.5N•m
- (2) For pilot lights with transformers and resistance units, remove the transformer or resistance unit in advance. (Fig.10)

Fig. 10

#### 9. Mounting a 22mm-dia. command switch with a square button and a square bezel, or with a round button and a square bezel, to a panel cutout hole for a 30mm-dia. command switch using an adapter

As shown in Fig. 11, mount an adapter and packing onto a 22mm-dia. command switch (AR22, DR22 series) with a square button and a square bezel or one with a round button and a square bezel. Then, insert the switch operator into the panel cutout hole from the front of the panel. Use AR9A004 wrench section A to tighten the locking nut from behind the panel to secure the switch.

Use the adapter accessory nut for this purpose. Do not use the command switch accessory nut.

Fig. 11 Command switch with a square button and a square bezel, and command switch with a round button and a square bezel

Note : • Recommended tightening torque is from 1 to 1.5N•m.  
• Panel thickness: 2.5 to 5mm

This adapter can be used with the following 22mm-dia. Command switches :

- AR22F0M, F5M, E0M, E5M, F0P, F5P, E0P, E5P, M4P
- AR22F0S, F5S, E0S, E5S, F0Y, F5Y, E0Y, E5Y, M4Y
- AR22PY, PCY, WY, WCY, RY, RCY, JY, JCY, PP
- DR22F3M, F4M, F5M, E3M, E3P

#### 10. AR30S1R, S2R, S3R, S6R

- (1) Attach the operator in the same manner as described in step 1.
- (2) Attach the rosette assembly to the operator.
- (3) Pressing the rosette from the directions indicated by the arrows, insert the selector tip in the groove.
- (4) Make sure that the selector tip is inserted completely.
- (5) To remove the rosette, use a small flathead screwdriver to remove the selector tip as described in step 3, and then remove the rosette.

Fig. 12

### 11. AR30A (joy stick selector)

- (1) Remove the clamp ring as shown in the following figure.
  - (2) Attach the operator in the same manner as described in step 1.
- Note: Even if a lock type is used, remove the clamp ring in the same manner.

Fig. 13

### ■ Water-proof and dust-proof cap

Applicable type: Water-proof cap AHX052  
Dust-proof cap AHX032, 033, 034  
AHX113  
AHX157

When attached to the panel in combination with a water-proof or dust-proof cap, the water-proof cap or dust-proof cap may sink downward and prevent the depressed button from returning to its original position.

As shown in the following figure, cut an approximately 5-mm air outlet in the portion of the ring packing touching the panel surface. Also, reduce the number of packing rings by one below the standard number. The clamp ring tightening torque is 1.5 to 2.5 N·m.

Fig. 14

### Degree of protection

The water-proof cap or dust-proof cap seals the panel surface to provide IP65 protection.

### ■ Applicable panel thickness

The AR30/DR30 series switches are mountable to panels with the thickness given in the table below.

| Switch mounting condition          | Applicable panel thickness |
|------------------------------------|----------------------------|
| Without accessories                | 1 to 6mm                   |
| With accessories   AR9Y003 adapter | 2.5 to 5mm                 |

### ■ Using accessory ring-packings

Use the required number of ring-packings (1.6mm-thick, 4 pieces, resin mold).

Table below is a guideline for using the packings.

If a locking nut or legend plate is used, the thickness must be counted as an additional panel thickness.

### Panel thickness vs. number of packings (reference data)

| Effective panel thickness including lock-ring and legend plate thicknesses | Number of packings |
|----------------------------------------------------------------------------|--------------------|
| 1.0mm to less than 2.0mm                                                   | 4                  |
| 2.0mm to less than 3.6mm                                                   | 3                  |
| 3.6mm to less than 5.0mm                                                   | 2                  |
| 5.0mm to less than 6.0mm                                                   | 1                  |

### ■ Minimum mounting space, mm

The minimum mounting spaces required for AR30/DR30 command switches are given below. (Fig. 15)

Fig. 15

- Illuminated pushbutton and pushbutton
- Emergency stop illuminated pushbutton and emergency stop pushbutton
- Illuminated and non-illuminated selectors
- Pilot light

Notes: \*1 AR30M3R, M8R, GSR: 55mm

\*2 AR30BLR, GPR, V1R: 80mm

| Type                                     | *3 | *4 |
|------------------------------------------|----|----|
| F4M                                      | 34 | 34 |
| F4N (Vertical lengthwise mounting)       | 40 | 34 |
| (Horizontal lengthwise mounting)         | 34 | 40 |
| M4M                                      | 40 | 40 |
| Pilot lights short-body with transformer | 50 | 42 |
| Pilot lights with resistor               | 80 | 42 |

Other items are the same as for the AR22 and DR22 series, see page 50 to 54.

## AR22/DR22 and AR30/DR30

### Special products

#### Products equipped with contact protection cover

##### ■ Features

A silicon rubber cover is provided for the contact block to keep out foreign matter such as dust, etc.

Other ratings and specifications are the same as those of the standard type.

##### ■ Type

**AR22 □ Z8**

**AR30 □ Z8**

Specify "Z8" at the end of the type number of the standard type.

##### ■ Dimensions

The only thing different from the standard product is the addition of a 1-mm thick silicon rubber cover around the contact block.

##### ■ Applicable types

| Type                                                                | Contact arrangement | Remarks        |
|---------------------------------------------------------------------|---------------------|----------------|
| • Pushbuttons *1                                                    | 1NO+1NC,            | For use with a |

|                                                                     | 3NO*5, 3NC          | 2-step contact |
| • Illuminated selectors<br>(without transformer)                    |                     |                |

Notes: \*1 Except for AR30B0R, B1R, B2R, B3R, N0R, and GPR.

\*2 Except for unibody (VG types)

\*3 Except for AR30Q7L

\*4 Except for emergency stop pushbutton switch

\*5 Except for emergency stop illuminated pushbutton switch

#### Resisting water-soluble cutting oils and heat

##### ■ Features

Safer operation in environments exposed to water-miscible cutting fluids, machining oils, lubricating oils, cleaning oils and high humidity (up to 95%) is made possible by using materials that protect against rust and corrosion of components.

Other ratings and specifications are the same as those of the standard type.

##### ■ Type

**AR22 □ Z9, DR22 □ Z9**

**AR30 □ Z9, DR30 □ Z9**

Specify "Z9" at the end of the type number of the standard type.

##### ■ Dimensions

Same as those of the standard type

##### ■ Applicable types

• AR22, DR22 series

AR 22 (Except for joy stick selectors and VG types)

DR22 (Except for pilot lights with resistor unit, buzzers, and numerical indicators)

• AR30, DR30 series

AR30 (Except for Q7L types and joy stick selectors)

DR30 (Except for D1L, F4M, F4N, M4M types, pilot lights with resistor/resistor unit, buzzers, and numerical indicators)

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AR22/DR22 and AR30/DR30

### Special products

#### Meeting IP2X finger protection standards

##### ■ Features

Conforms to EN standard EN60204-1 (protecting against electric shock). The terminal has IEC60529 degree of protection; IP2X finger protection secured (a mock human finger used in testing did not come into contact with charged parts). The contact block and lamp terminal can be easily mounted or removed with the terminal cover mounted.

##### ■ Type

AR22 □ ZB, DR22 □ ZB

AR30 □ ZB, DR30 □ ZB

Specify "ZB" at the end of the type number of the standard type.

##### ■ Accessories

- Contact block (plus terminal cover)  
NO contact: AR9B290-D  
NC contact: AR9B291-D
- Transformer unit (plus terminal cover)  
AR9T511-□ D

##### ■ Ratings and specifications

- Protection degree: IP2X
- Terminal screw: M3.5  
Wiring can be done with a solid wire or fork shaped crimp terminal.

Note: Ring-type crimp terminals cannot be used.

- Other ratings and specifications are the same as those of the standard type.

##### ■ Applicable types

- AR22, DR22 series  
AR22 (except for joy stick selectors)  
DR22: Without transformer, with transformer (except for short-body types, buzzers and numerical indicators)
- AR30, DR30 series  
AR30 (except for joy stick selectors)  
DR30: Without transformer, with transformer (except for D1L, short-body types, F4M, F4N, M4M types, buzzers and numerical indicators)

Note: The terminal of the standard type VG has IP2X protection.

#### ■ Dimensions, mm

AR22/Pushbutton switches

DR22/Without transformer

DR22/With transformer

Note: \* Except for the types 110V AC, 127V AC and 220V AC.

## AR22/DR22 and AR30/DR30

### Special products

#### Metal nut (chrome plated) types

##### ■ Features

The nut is a metallic ring (chrome plated).  
Other ratings and specifications are the same as those of the standard model.

##### ■ Type

**AR30 □ ZM**

**DR30 □ ZM**

Specify "ZM" at the end of the type number of the standard type.

##### ■ Dimensions, mm

Same as those of the standard types.

##### ■ Applicable types

• AR30, DR30 series

AR30 (except for G4L, G9L, GSR\*<sup>1</sup>, GPR\*<sup>1</sup>, and B0R\*<sup>1</sup> types)  
DR30 with round bezel (except for IP54 buzzer type B8)\*<sup>2</sup>

Notes: \*<sup>1</sup> Standard type is a metallic ring (chrome plated).

\*<sup>2</sup> The nut of types DR30B0, B5 and B6 buzzers are resin (chrome plated).

#### Resisting sulfuration gas

##### ■ Features

These products can be used in environments having a concentration of hydrogen sulfide gas of 0.5 ppm or less. The metallic parts have been subjected to an anti-corrosion treatment (see note). The contacts of the AR series are gold plated.

Note: The body is made of resin and cannot be used with gases that affect resins (plastics).

##### ■ Type

**AR22 □ Z4, DR22 □ Z4**

**AR30 □ Z4, DR30 □ Z4**

Specify "Z4" at the end of the type number of the standard type.

##### ■ Notes on use

- This product is resistant to light corrosive gas exposure.
- Other measures, such as covering the entire switch with a box, and the degree of protection of the panel should be taken into consideration.

##### ■ Ratings and specifications

Hydrogen sulfide gas concentration of 0.5 ppm max.

Ambient storage temperature: 8 to 37°C

Humidity: 62 to 81%

Other ratings and specifications are the same as those of the standard type.

##### ■ Dimensions, mm

Same as those of the standard types.

##### ■ Applicable types

• AR22, DR22 series

AR22 (except for Joy stick selectors and VG type)

DR22 (except for pilot lights with resistor unit, buzzers, and numerical indicators)

• AR30, DR30 series

AR30 (except for Joy stick selectors)

DR30 (except for F4M, F4N, M4M types, pilot lights with resistor/resistor unit, buzzers and numerical indicators)

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AH164, AH165 and AH165-2

### General information

#### ■ Features

##### Design basis

The 16mm dia. series of compact size pushbuttons are 'finger-size', and consequently take up little panel space. AH165-2 series operators are about twice as large as the AH164 and AH165 series operators for easier operation. With many types of operator available, the most suitable switch can be identified by color, shape and legend, and have a smooth, quality "snap-action". In spite of their small size they have a highly reliable mechanism, and are eminently suited for solid state and other electronic circuits. AH164, AH165 and AH165-2 series contact block holders can easily be removed manually. Moreover, the contact block can be easily attached or detached without using any special tools, thus facilitating addition or replacement of contact.

##### Selector switches

Selector switches can also be supplied in either knob-handle operated or key operated types.

##### Strong construction

The operator and contact blocks are molded from an excellent thermal resistance resin and can withstand the heat at the time of soldering. Since these pushbuttons are manufactured to industrial standards they can withstand vibration or shock thus eliminating lamp failure due to such causes as loose bases. With regard to the degree of protection, standard types which met the requirements of IP40 of Pub. No. 529, IEC Standards, and oil tight types which meet the requirements of IP65 of the said, are available. This permits the application to various fields, from machine tools to OA (Office Automation) facilities.

##### Quality feel tough

Both the operator and contact block are precisely engineered. There is no fear of the switch malfunction even after long use and it continues to operate smoothly for its service life of about 1,000,000 operations.

##### Easy color change

Color lenses fit over the inner button. The lens can easily be removed using a small screwdriver

Note: The luminous color of LEDs and neon illumination types varies with the body color of the product.

##### Visible inscription

Button legends are printed on legend sheet, which is stuck to the legend plate on the inner button.

The lettering is back lit by the switch lamp and the inscription is highly visible through the color lens.

Contact FUJI for your lettering requirements.

##### Excellent switch reliability

The switch uses a snap-action mechanism. The pushbuttons are available with either momentary or alternative actions. The snap-action switch has a double break movement which operates independently of the speed of switching. The contacts are made from gold-flashed silver. High contact reliability of 1mA at 5V AC/DC is assured. Contact blocks are available in 1NO+1NC to 3NO+3NC arrangement.

##### Large terminals

Solder/tab terminal is provided as standard. Wire-wrap terminal is available on request.

##### Safety

FUJI's original Trigger Action mechanism is used in the emergency stop pushbuttons. They are suitable for emergency stop and safety. This mechanism prevents the contacts from moving until the button is pushed and locked.

- Provided with a trigger action mechanism conforming to EN418.
- Provided with direct opening action (approved by TÜV) conforming to EN60947-5-1 and EN60947-5-5.

##### Alternate action

In the case of alternate action when the button is depressed the contacts are maintained and remain so even if the finger is removed. The button will not return to its free position. In order to remove the lock, the button must be given a second pressure before the button will return to its free position. This makes it most suitable as the switch for a power source.

##### Pushbutton with finger guards

Finger guards are provided for square or rectangular type pushbuttons (SF, TF, SL and TL types) in order to prevent operational error of adjacent buttons.

##### Approvals

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AH164 and AH165

### Part number system

#### ■ Part number system

#### Pushbuttons, illuminated pushbuttons and pilot lights

**AH165 - L R 11 E 3 - W**  
 ① ② ③ ④ ⑤ ⑥ ⑦

##### ① Product category

AH164: Standard (IP40)

AH165: Oil-tight (IP65)

##### ② Operator or lens

• Operator for illuminated pushbutton

SL: Flush square head

SL5: Flush square head (Alternate)

TL: Flush rectangular head

TL5: Flush rectangular head (Alternate)

L: Extended round head

L5: Extended round head (Alternate)

TGL: Flush rectangular head with guard

TGL5: Flush rectangular head with guard (Alternate)

SGL: Flush square head with guard

SGL5: Flush square head with guard (Alternate)

• Operator for pushbuttons

SF: Flush square head

SF5: Flush square head (Alternate)

TF: Flush rectangular head

TF5: Flush rectangular head (Alternate)

E: Extended round head

E5: Extended round head (Alternate)

TGF: Flush rectangular head with guard

TGF5: Flush rectangular head with guard (Alternate)

SGF: Flush square head with guard

SGF5: Flush square head with guard (Alternate)

M: Mushroom head

M5: Mushroom head (Alternate)

SM: Convex square head

SM5: Convex square head (Alternate)

TM: Convex rectangular head

TM5: Convex rectangular head (Alternate)

V: Push-lock, turn-reset (32mm dia.)\*<sup>1</sup> \*<sup>2</sup>

V1: Push-lock, turn-reset (40mm dia.)\*<sup>1</sup> \*<sup>2</sup>

• Operator for emergency stop pushbuttons

V5: Push-lock, turn-reset (32mm dia.)\*<sup>2</sup>

V6: Push-lock, turn-reset (40mm dia.)\*<sup>2</sup>

• Lens for pilot lights

Z: Extended round

ZS: Flush square

ZT: Flush rectangular

ZM: Dome

Note: \*<sup>1</sup> Product with no trigger action mechanism

\*<sup>2</sup> AH165 type only, direct opening action

##### ③ Color of button or lens

| Code | color     | Button | LED        | Incandescent | Neon       |
|------|-----------|--------|------------|--------------|------------|
| G    | Green     | ○      | ○          | ○            | ○          |
| R    | Red       | ○      | ○          | ○            | ○ (Orange) |
| B    | Black*    | ○      | —          | —            | —          |
| Y    | Yellow    | ○      | ○          | ○            | ○ (Orange) |
| W    | White     | ○      | ○ (Orange) | ○            | ○ (Orange) |
| S    | Blue      | ○      | ○          | ○            | ○ (Green)  |
| O    | Orange    | ○      | ○ (Amber)  | ○            | ○          |
| RG   | Red/Green | —      | ○          | —            | —          |

Notes: • ( ): indicates luminous color

• AH165-V, V1, V5, V6: Red only

\* Not available for illuminated types

##### ④ Contact arrangement

01: 1NC\*<sup>1</sup> 22: 2NO+2NC

02: 2NC\*<sup>1</sup> 33: 3NO+3NC\*<sup>2</sup>

11: 1NO+1NC

Notes: \*<sup>1</sup> Available for AH165-V, V1, V5, V6

\*<sup>2</sup> Not available for with transformer types

##### ⑤ Lamp voltage

| Code | LED                                      | Incandescent* <sup>2</sup> | Neon* <sup>2</sup> |
|------|------------------------------------------|----------------------------|--------------------|
| AA   | 5V DC* <sup>2</sup>                      | —                          | —                  |
| A    | 6V DC* <sup>2</sup>                      | 5V AC/DC                   | —                  |
| B    | 12V DC                                   | 12V AC/DC                  | —                  |
| E    | 24V DC                                   | 24V AC/DC                  | —                  |
| H    | 100-110V AC* <sup>1</sup> * <sup>2</sup> | 100-110V AC* <sup>1</sup>  | 110V AC            |
| K    | —                                        | —                          | 120V AC            |
| M    | 200-220V AC* <sup>1</sup> * <sup>2</sup> | 200-220V AC* <sup>1</sup>  | 220V AC            |
| P    | —                                        | —                          | 240V AC            |

Notes: \*<sup>1</sup> With transformer (LED: 24V, Incandescent: 28V)

\*<sup>2</sup> Not available AH165-ZM

• ZM type: LED lamp only (12, 24V DC)

##### ⑥ Type of lamp

Blank: Incandescent

1: Neon

2: Spot LED, LED (ZM types)

3: Flat LED

##### ⑦ Terminal

Blank: Solder/tab

W: Wire-wrap

S: Soder (AH165-V, V1, V5, V6 types only)

Note: ZM types: wire-wrap terminal only (Code is blank)

## AH164 and AH165

### Part number system

#### ■ Part number system

##### Selector switches

**AH165 - J 2 B 11 A - W**  
 ① ② ③ ④ ⑤ ⑥ ⑦

##### ① Product category

AH164: Standard (IP40)

AH165: Oil-tight (IP65)

##### ② Operator

• 2-position, 3-position (operating angle 90°)

SP: Knob with square bezel

P: Knob with rectangular bezel

SJ: Key with square bezel

J: Key with rectangular bezel

JM: Key with rectangular bezel (Direct opening action) \*

RJM: Key (Direct opening action) \*

Note: \* AH165 types (2-position) only

• 3-position (operating angle 45°)

SPK: Knob with square bezel

PK: Knob with rectangular bezel

SJK: Key with square bezel

JK: Key with rectangular bezel

##### ③ Operation

2: 2-position, maintained

0: 2-position, spring return\*

3: 3-position, maintained

6: 3-position, spring/manual return (Left to center)

7: 3-position, spring/manual return (Right to center)

1: 3-position, spring return

Note: \* Except for JM and RJM types

##### ④ Color of knob or key removable position

• Color of knob

B: Black

• Key removable position

| Code | 2-position |   | 3-position<br>(operating angle 90°) |   |   |   | 3-position<br>(operating angle 45°) |   |   |   |

##### ⑤ Contact arrangement

11: 1NO+1NC

22: 2NO+2NC

33: 3NO+3NC\*

Note: \* Except for JM and RJM types.

##### ⑥ Key type No.

A (standard), B, C, D, E, F

##### ⑦ Terminal

Blank: Solder/tab

W: Wire-warp

Note: JM, RJM types: Solder/tab terminal only

##### Buzzers

**AH164 - T X B E**  
 ① ② ③ ④

##### ① Product category

AH164: Standard (IP00)

AH165: Splash-proof (IP54)

##### ② Sound

TX: Standard (AH164)

TX1: Loud sound (AH164)

TX2: Loud sound with volume control (AH164)

X: Standard sound with volume control (AH165)

##### ③ Color of head

B: Black

##### ④ Operating voltage

AAC: 6V AC\*2

ADC: 6V DC\*2

A: 6V AC/DC\*1

E: 12 to 24V AC/DC

F: 35 to 48V AC/DC

Notes: \*1 Except for TX and TX1 types

\*2 Except for TX2 and X types

#### ■ Lamp ratings

| Rated operational voltage | Consumption         |                    |         |
|---------------------------|---------------------|--------------------|---------|
|                           | LED DC              | Incandescent AC/DC | Neon AC |
| 5V                        | 14mA (Yellow: 28mA) | 0.45W (6V)         | —       |
| 6V                        | 14mA (Yellow: 28mA) | —                  | —       |
| 12V                       | 14mA                | 0.55W (14V)        | —       |
| 24V                       | 14mA                | 0.55W (28V)        | —       |
| 110V                      | —                   | —                  | 0.19VA  |
| 120V                      | —                   | —                  | 0.21VA  |
| 220V                      | —                   | —                  | 0.38VA  |
| 240V                      | —                   | —                  | 0.42VA  |

Notes: • With transformer (LED): 1.5VA/110, 220V  
 • With transformer (Incandescent): 2VA/110, 220V  
 • For the incandescent lamps, the values in parentheses indicate the rated voltage of the lamps.

#### ■ Contact reliability

FUJI has confirmed that the unit can be used in 1mA circuit conditions at 5V AC or DC. The operable range may vary depending on the ambient conditions and type of load.

# Illuminated Pushbuttons

## AH164 and AH165

### ■ Illuminated pushbutton switches/without transformer

## ■ Dimensions, mm

### • Button color

| Color | Green | Red | White | Yellow | Blue | Orange |
|-------|-------|-----|-------|--------|------|--------|
| Code  | G     | R   | W     | Y      | S    | O      |

- The color lens is made of a tinted transparent material.
- A white illuminated pushbutton is fitted with a transparent color lens. (Except the neon lamp)
- With wire-wrap pin terminals have a depth of 47mm.

### • Lamp voltage

Voltages other than above are available

| Code | LED    | Incandescent | Neon    |
|------|--------|--------------|---------|
| AA   | 5V DC  | —            | —       |
| A    | 6V DC  | 5V AC/DC     | —       |
| B    | 12V DC | 12V AC/DC    | —       |
| K    | —      | —            | 120V AC |
| P    | —      | —            | 240V AC |

Note: • The only color codes used for red/green LEDs are R and G. The color lens is transparent.  
 Red/green LEDs do not have high-brightness specifications.  
 • 24V DC only

### •Button color

Replace the □ mark by the following color code

| Color | Green | Red | Black | White | Blue | Yellow | Orange |
|-------|-------|-----|-------|-------|------|--------|--------|
| Code  | G     | R   | B     | W     | S    | Y      | O      |

- The color lens is made of a tinted transparent material. (Except the M, SM, TM types)
- A white pushbutton is fitted with a transparent color lens.(Except the M, SM, TM types) A black pushbutton consists of a transparent color lens and an attached black legend plate. (Except M, SM, TM types)
- With wire-wrap pin terminals have a depth of 47mm.

- The operating angle range can be changed as shown below by setting the attached flange shifted by 45° in combination with the contact block.  
In this case, the minimum mounting pitch is 26mm because the contact block is shifted by 45° from the flange.

### • Contact block position

### • Contact arrangement and operator position: 2-position selector switch

- There are 6 available key types; A, B, C, D, E and F. Standard key code is A.
- Contact arrangement and operator position: *See page 147.*
- Spring return, spring/manual return (spring return): Operation angle 70-degree

- \* Available key removable position: Code B ⊖
- With wire-wrap pin terminals have a depth of 47mm.

# Selector Switches AH164 and AH165

## ■ Selector switches/3-position (45-degree)

Note: • The only color codes used for red/green LEDs are R and G. The color lens is transparent.  
Red/green LEDs do not have high-brightness specifications.

Relationship between luminous color and terminal

## • Lamp voltage

Voltages other than above are available

| Code | LED    | Incandescent | Neon    |
|------|--------|--------------|---------|
| AA   | 5V DC  | —            | —       |
| A    | 6V DC  | 5V AC/DC     | —       |
| B    | 12V DC | 12V AC/DC    | —       |
| K    | —      | —            | 120V AC |
| P    | —      | —            | 240V AC |

Note: Except for ZM types and red/green LED types

## • Lens color

Replace the □ mark by the following lens color code

| Color | Green | Red | White | Yellow | Blue | Orange |
|-------|-------|-----|-------|--------|------|--------|
| Code  | G     | R   | W     | Y      | S    | O      |

- The color lens is made of a tinted transparent material.
- A white pilot lights is fitted with a transparent color lens. (Except the neon lamp and dome).
- With wire-wrap pin terminals have a depth of 29mm. (Except for ZM type)

- **Pilot lights/with transformer**

| Lens                                                                                           | Lamp         | Voltage                                                       | AH164 type  | AH165 (oil-tight) type | Dimensions, mm                                                                       |

- **Lens color**

Replace the ☐ mark by the following lens color code

|       |       |     |       |        |      |        |
|-------|-------|-----|-------|--------|------|--------|
| Color | Green | Red | White | Yellow | Blue | Orange |
| Code  | G     | R   | W     | Y      | S    | O      |

- The color lens is made of a tinted transparent material.
- A white pilot lights is fitted with a transparent color lens.

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AH164 and AH165

### Mounting space

#### ■ Mounting space, mm

- Pushbuttons and pilot lights

##### Extended round head or lens

##### Flush square head or lens

##### Flush rectangular head or lens

##### Mushroom head

##### Convex square head

##### Convex rectangular head

#### • Selector switches

##### • When mounting the selector switches near the pilot light

##### • When mounting the selector switches near each other

##### • With transformer

Note: \* ( ) For switch with flush rectangular head

##### • When mounting the JM or RJM selector switches near each other (2NO+2NC only)

##### • When mounting the JM or RJM selector switches near the other selector switch, pushbutton switch and pilot lights

Note: \* Mushroom, convex square, convex rectangular: 27

#### • AH165-V, V1, V5, V6

#### • AH165-JM, RJM

#### ■ Terminal number

##### • AH164, 165

## ■ Part number system

### Pushbuttons, illuminated pushbuttons and pilot lights

**AH165-2 FL R 11 E 3 – W**  
 ① ② ③ ④ ⑤ ⑥ ⑦

#### ① Product category

AH165-2: Oil-tight (Large operator)

#### ② Operator or lens

• Operator for illuminated pushbutton

FL: Flush round head  
 FL5: Flush round head (Alternate)  
 SFL: Flush square head  
 SFL5: Flush square head (Alternate)  
 EL: Extended round head  
 EL5: Extended round head (Alternate)  
 SEL: Extended square head  
 SEL5: Extended square head (Alternate)  
 SCL: Concave square head  
 SCL5: Concave square head (Alternate)  
 ML: Mushroom head  
 YML: Mushroom head with square bezel  
 VL: Push-lock, turn-reset  
 YVL: Push-lock, turn-reset with square bezel

• Operator for pushbuttons

F: Flush round head  
 F5: Flush round head (Alternate)  
 SF: Flush square head  
 SF5: Flush square head (Alternate)  
 E: Extended round head  
 E5: Extended round head (Alternate)  
 SE: Extended square head  
 SE5: Extended square head (Alternate)  
 SCE: Concave square head  
 SCE5: Concave square head (Alternate)  
 M: Mushroom head  
 YM: Mushroom head with square bezel  
 V: Push-lock, turn-reset  
 YV: Push-lock, turn-reset with square bezel  
 S2: With selector ring  
 YS2: With selector ring with square bezel

• Lens for pilot lights

Z: Flush round  
 SZ: Flush square  
 ZE: Extended round  
 SEZ: Extended square

#### ③ Color of button or lens

| Code | Color  | Button | LED        | Incandescent | Neon       |
|------|--------|--------|------------|--------------|------------|
| G    | Green  | ○      | ○          | ○            | ○          |
| R    | Red    | ○      | ○          | ○            | ○ (Orange) |
| B    | Black* | ○      | —          | —            | —          |
| Y    | Yellow | ○      | ○          | ○            | ○ (Orange) |
| W    | White  | ○      | ○ (Orange) | ○            | ○ (Orange) |
| S    | Blue   | ○      | ○          | ○            | ○ (Green)  |
| O    | Orange | ○      | ○ (Amber)  | ○            | ○          |

Notes: • ( ): indicates luminous color

\* Not available for illuminated types

#### ④ Contact arrangement (except pilot lights)

11: 1NO+1NC

22: 2NO+2NC

33: 3NO+3NC

#### ⑤ Lamp voltage

| Code | LED    | Incandescent | Neon    |
|------|--------|--------------|---------|
| AA   | 5V DC  | —            | —       |
| A    | 6V DC  | 5V AC/DC     | —       |
| B    | 12V DC | 12V AC/DC    | —       |
| E    | 24V DC | 24V AC/DC    | —       |
| H    | —      | —            | 110V AC |
| K    | —      | —            | 120V AC |
| M    | —      | —            | 220V AC |
| P    | —      | —            | 240V AC |

#### ⑥ Type of lamp

Blank: Incandescent

1: Neon

3: Flat LED

#### ⑦ Terminal

Blank: Solder/tab

W: Wire-wrap

# Pushbuttons/Selectors/Pilot Lights

## AH165-2

### Part number system

#### ■ Part number system

##### Selector switches

**AH165-2 J 2 B 11 A - W**  
 ① ② ③ ④ ⑤ ⑥ ⑦

① **Product category**  
 AH165-2: Oil-tight (Large operator)

② **Operator**  
 • Knob and key type  
 2-position (operating angle 90°)  
 P: Knob  
 YP: Knob with square bezel  
 J: Key  
 YJ: Key with square bezel

3-position (operating angle 45°)  
 P: Knob  
 YP: Knob with square bezel  
 J: Key  
 YJ: Key with square bezel

• Lever type  
 2-position (operating angle 45°)  
 H: Lever  
 SH: Lever with square bezel  
 Note: The operation angle is 45° on the upper and lower side.

③ **Operation**  
 2: 2-position, maintained  
 0: 2-position, spring return\*  
 3: 3-position, maintained  
 6: 3-position, spring/manual return (Left to center)  
 7: 3-position, spring/manual return (Right to center)  
 1: 3-position, spring return  
 Note: \* Except for H and SH types

④ **Color of knob, lever or key removable position**  
 • Color of knob or lever  
 B: Black

• Key removable position

| Code | 2-position |   | 3-position |   |   |   |
|------|------------|---|------------|---|---|---|
|      | 2          | 0 | 1          | 3 | 6 | 7 |
| A    |            |   | —          |   | — |   |
| B    |            | — | —          |   | — | — |
| C    | —          | — | —          |   | — | — |
| D    |            | — | —          |   | — | — |
| E    | —          | — | ①          | — | — | — |
| F    | —          | — | —          |   | — | — |
| G    | —          | — | —          |   | — |   |

⑤ **Contact arrangement**  
 11: 1NO+1NC\*  
 22: 2NO+2NC  
 33: 3NO+3NC  
 Note: \* Except for 3-position

⑥ **Key type No.**  
 A (standard), B, C, D, E, F

⑦ **Terminal**  
 Blank: Solder/tab  
 W: Wire-wrap

##### Illuminated selector switches

**AH165-2 PL 2 G 11 E 3**  
 ① ② ③ ④ ⑤ ⑥ ⑦

① **Product category**  
 AH165-2: Oil-tight (Large operator)

② **Operator**  
 • 2-position (operating angle 90°)  
 PL: Knob  
 • 3-position (operating angle 45°)  
 PL: Knob

③ **Operation**  
 2: 2-position, maintained  
 3: 3-position, maintained

##### ④ Color of knob

| Code | Color  | LED        | Incandescent | Neon       |
|------|--------|------------|--------------|------------|
| G    | Green  | ○          | ○            | ○          |
| R    | Red    | ○          | ○            | ○ (Orange) |
| Y    | Yellow | ○          | ○            | ○ (Orange) |
| W    | White  | ○ (Orange) | ○            | ○ (Orange) |
| S    | Blue   | ○          | ○            | ○ (Green)  |
| O    | Orange | ○ (Amber)  | ○            | ○          |

Notes: • ( ): indicates luminous color  
 • The part other than the arrow of the knob is black.

⑤ **Contact arrangement**  
 11: 1NO+1NC\*  
 22: 2NO+2NC  
 Note: \* Except for 3-position

##### ⑥ Lamp voltage

| Code | LED    | Incandescent | Neon    |
|------|--------|--------------|---------|
| AA   | 5V DC  | —            | —       |
| A    | 6V DC  | 5V AC/DC     | —       |
| B    | 12V DC | 12V AC/DC    | —       |
| E    | 24V DC | 24V AC/DC    | —       |
| H    | —      | —            | 110V AC |
| K    | —      | —            | 120V AC |
| M    | —      | —            | 220V AC |
| P    | —      | —            | 240V AC |

⑦ **Type of lamp**  
 Blank: Incandescent  
 1: Neon  
 3: Flat LED  
 Note: Terminal with solder/tab only

| Rated operational voltage | Consumption         |                    |         |
|---------------------------|---------------------|--------------------|---------|
|                           | LED DC              | Incandescent AC/DC | Neon AC |
| 5V                        | 14mA (Yellow: 28mA) | 0.45W (6V)         | —       |
| 6V                        | 14mA (Yellow: 28mA) | —                  | —       |
| 12V                       | 14mA                | 0.55W (14V)        | —       |
| 24V                       | 14mA                | 0.55W (28V)        | —       |
| 110V                      | —                   | —                  | 0.19VA  |
| 120V                      | —                   | —                  | 0.21VA  |
| 220V                      | —                   | —                  | 0.38VA  |
| 240V                      | —                   | —                  | 0.42VA  |

Notes: For the incandescent lamps, the values in parentheses indicate the rated voltage of the lamps.

#### ■ Contact reliability

FUJI has confirmed that the unit can be used in 1mA circuit conditions at 5V AC or DC. The operable range may vary depending on the ambient conditions and type of load.

|                                                                                                                                                 |              |           |                               |                                                                            |                                                                                                               |

#### • Button color

Replace the □ mark by the following button color code

| Color | Green | Red | White | Yellow | Blue | Orange |
|-------|-------|-----|-------|--------|------|--------|
| Code  | G     | R   | W     | Y      | S    | O      |

- With wire-wrap pin terminals have a depth of 47mm.

- A white illuminated pushbutton is fitted with a transparent color lens.
- The color lens is made of a tinted transparent material.

#### • Lamp voltage

Voltages other than above are available

| Code | LED    | Incandescent | Neon    |
|------|--------|--------------|---------|
| AA   | 5V DC  | —            | —       |
| A    | 6V DC  | 5V AC/DC     | —       |
| B    | 12V DC | 12V AC/DC    | —       |
| K    | —      | —            | 120V AC |
| P    | —      | —            | 240V AC |

• The key can be removed only at the following positions:

A: ⊘ B: ⊗ D: ⊙

- For spring-return selector switches, the key can be removed at position A.
- There are 6 available key types; A, B, C, D, E and F. Standard key code is A.
- With wire-wrap pin terminals have a depth of 47mm.

• The Key can be removed at the following positions:

A: ⊖ B: ⊗ C: ⊗ D: ⊘ E: ⬆ F: ⬆ G: ⬆

For spring-return selector switches, the key can be removed only at position E.  
For manual/spring-return selector switches, the key can be removed at positions D, E and F for type J6, and position A, E and G for type J7.

• There are 6 available key types; A, B, C, D, E and F.

Standard key code is A.

• With wire-wrap pin terminals have a depth of 47mm.

|                                                                                                | Incandescent | 24V AC/DC | <b>AH165-2SZE□E</b>  |                                                                                      |
|                                                                                                | Neon         | 110V AC   | <b>AH165-2SZE□H1</b> |                                                                                      |
|                                                                                                |              | 220V AC   | <b>AH165-2SZE□M1</b> |                                                                                      |

### • Lens color

Replace the □ mark by the following lens color code

| Color | Green | Red | White | Yellow | Blue | Orange |
|-------|-------|-----|-------|--------|------|--------|
| Code  | G     | R   | W     | Y      | S    | O      |

### • Lamp voltage

Voltage other than above is available

| Code | LED    | Incandescent | Neon    |
|------|--------|--------------|---------|
| AA   | 5V DC  | —            | —       |
| A    | 6V DC  | 5V AC/DC     | —       |
| B    | 12V DC | 12V AC/DC    | —       |
| K    | —      | —            | 120V AC |
| P    | —      | —            | 240V AC |

- The color lens is made of a tinted transparent material.
- A white lens is fitted with a transparent color lens.
- With wire-wrap pin terminals have a depth of 29mm.

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AH164, AH165 and AH165-2

### Notes on use

#### Notes on use

##### ■ Installation on panel

- For installation, use dedicated wrench AHX601. The appropriate tightening torque is 0.6 to 1N·cm.
- The installation sequence is as follows:  
Pass the operator base through the hole in the panel and secure it by tightening the bezel. Properly position the catch arms of the contact holder and the catch legs of the operator base and push the contact holder onto the operator base. To remove the contact holder, pull it while pressing the catch arms inward.

##### ■ Mounting steps of switch with transformer

- Pass the switch operator through the panel hole and secure with a nut by way of the retainer metal from the front of the panel.
- Align the position of the catch arm of the contact block holder with that of the catch leg of the switch operator. Engage these two catches by pushing them together.
- Insert and secure the transformer unit while assembling the contact block holder with the retainer metal.
- Connect the receptacle terminal with lead wires extending from the transformer to the lamp terminal of the contact block holder. (Be care on the polarity of the LED. Red: +, Black: -)
- Push in and secure the standard accessory insulation cover by aligning its position with each terminal. To replace the transformer, remove the transformer by widening the catch leg of the contact block holder. Pay attention not to excessively widen the catch leg. Mounting steps are the same as the above steps ③, ④, and ⑤.

##### ■ Installing the protection cover / dust-tight cover, guard-ring

- Be careful that the panel thickness does not exceed the following:
- Panel thickness
  - Protection cover: 2.6mm max.
  - Dust-tight cover: 2.0mm max.
  - Guard ring: 2.5mm max.

##### ■ Operating voltage and rated voltage of incandescent lamps

| Rated voltage  | Operating voltage |
|----------------|-------------------|
| 6V             | 4 to 5V           |
| 14V            | 10 to 12V         |
| 28V (Standard) | 20 to 24V         |

Incandescent lamps should be operated at the operating voltages if a lamp service life of 5,000 to 10,000 hours are needed. The ambient temperature must not exceed 30°C if the lamp is used at the rated voltage continuously.

##### ■ Method of replacing lamp

- Incandescent lamps/LED lamps/neon lamps  
Remove the color lens and inner button with a remover AHX618.  
Then draw out the lamp with a lamp changer AHX672.  
When installing lamps, do it manually and in the reverse order of removing.
- Products with blue and green LEDs  
The LED devices on products with high-brightness (blue and green) LEDs are very sensitive to static electricity. When replacing LED lamps do not allow static electricity to come into direct contact with the metal frame on the upper side of the LED lamp. The LED device may be damaged if this part is subjected to static electricity. When installing or removing an LED lamp, it is recommended that you use the lamp changer (AHX672).

- To replace the lamp of a AH165-2 illuminated pushbutton switch (ML,VL), remove the button and draw out the oil-tight cap.

- Then, replace the lamp using a lamp changer (AHX672) and push the oil-tight cap into its original position with its engaging projection properly adjusted (see the figure below).

Note: Lamp of AH165-ZM type can not be replaced.

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AH164, AH165 and AH165-2

### Notes on use

#### ■ Method of replacing color lens

- To remove the color lens, insert a small screwdriver into the color lens and twist in direction of the arrow.

- For an AH165-2, use a small standard screwdriver or a similar tool with a flat end. If one side of the color lens is removed from the screen, insert the screwdriver or a similar tool deeper and remove the color lens together with the screen.

#### ■ Replacing pushbuttons

In the case of alternative action type pushbutton switches and illuminated pushbutton switches, be sure not to replace the pushbuttons in their locked state. This could result in internal damage to the mechanism.

#### ■ Description sheet

The Fuji description sheet is 25 $\mu$ m thick. If preparing custom description sheets, make sure that the thickness is 0.1mm or less.

#### ■ Contact block

To replace a contact block, use removing tool AGX012. If excessive force is applied when attempting to open the support legs for the contact block holder, deformation or damage may occur.

#### ■ Handling precautions

- Do not apply torque in excess of 1.0 N·m to operate the selectors switch (Type "P"). Required operating force of switches is less than 0.1 N·m.
- Do not tap on a pushbutton to turn it ON or OFF, such handling may damage it. Be sure to operate the pushbutton by hand.

#### ■ Key type selector switch

- Five key types (Type B to Type F) are available besides Type A, which is the standard key type.

Symbol on the key

Symbol on the main unit

- Be sure to use a key with a symbol which is matched with the symbol on the main unit.
- Fully insert the key into the main unit before turning the key.
- The key turning force should not exceed 0.1 N·m.
- Do not pull out or insert the key forcibly.

#### ■ Wiring connections

- Use a soldering iron with a wattage of not more than 30W and a tip length of more than 20mm.  
Use a rosin-core solder  
With a 30W iron complete soldering within 5 seconds, or 10 seconds with a 20W iron. Do not apply external force to the terminals. Do not deform the terminals.  
Because lead-free solder's melting point is slightly high, soldering work may be difficult. Use a soldering iron whose tip is rather large or whose calorie is rather high.
- Wires that can be connected  
Two solid wires with a maximum diameter of 0.8mm (solder)  
One stranded wire with a maximum area of 0.75mm<sup>2</sup> (solder)  
Flat connection terminal  
(2.8□-1.25-5) 0.5 to 1.25mm<sup>2</sup>  
(2.8□-0.5-5) 0.2 to 0.5mm<sup>2</sup>
- Using contact blocks  
When using NO and NC contacts in the same contact block, avoid connection that involves opposite polarity or wiring from different types of power supply.
- For wiring to adjacent terminals, use insulated tubing to prevent short-circuit and to assure isolation. For solder terminals, be careful when connecting thick wires. Do not use too much solder.
- Wiring to wire-wrap pin terminals  
Select the appropriate wire sizes and tools from the table below.

| Wire size     | Bit   | Sleeve | Number of effective wraps |
|---------------|-------|--------|---------------------------|
| 0.4mm dia.    | 3-A   | 1-B    | About 8                   |
| 0.5mm dia.    | 1-A   | 1-B    | About 6                   |
| (0.65mm dia.) | (2-A) | (2-B)  | (About 6)                 |

Use ordinary wrapping for connection.

Wires of 0.65mm dia. must not be used on adjacent terminals. However, 0.65mm dia. wire can be mixed with 0.4 and 0.5mm dia. wires.

- Wiring to tab terminals  
Use receptacles, No. 110.

#### ■ Installing lamps in close order

When continuously lighting pilot lights or pressing illuminated pushbuttons installed in close order, care must be taken that the ambient temperature does not exceed the rated value.

# Pushbuttons/Selectors/Pilot Lights/Buzzers

## AH164, AH165 and AH165-2

### Notes on use

#### ■ LEDs

##### • LED Lamp Malfunctioning

The LED lamp is lit by a very small level of current (approximately 0.01mA). Therefore, the it may be erroneously lit by a current leaking from the surge absorption circuit or semiconductor circuit or due to stray capacitance between cables. In that case, provide a countermeasure (e.g., connect a resistor in parallel with the LED lamp).

##### • Countermeasure for Malfunctioning

Shunt Resistor R or CR elements connected in parallel  
Lamp malfunctions can be prevented by connecting a shunt resistor (R) or CR elements (a capacitor and resistor) in parallel with the LED lamp terminal. The resistance and CR values vary depending on the model and the operating conditions.

Example 1

- 24V DC  
R: 10k $\Omega$  (1W)

Example 2

- 110V AC  
C: 0.33 $\mu$ F (250V AC)  
R: 120 $\Omega$  (0.25W)
- 220V AC  
C: 0.33 $\mu$ F (250V AC)  
R: 120 $\Omega$  (0.25W)

##### • Incoming surge

Be careful that since high luminance LED products use an element sensitive to static electricity, they may not be lit by an abnormal voltage like surge.

#### ■ Using a flat LED in 48V DC circuit

When a flat LED lamps having a rated voltage of 24V DC is used with 48V DC circuit, connect an external resistor of 1,800 $\Omega$  (2W).

#### ■ Preventing the neon lamp from incorrectly turning ON

The neon lamp may incorrectly turn ON due to current leakage or voltage induction. In such a case, connect a shunt resistor in parallel with the lamp.

Example) 110V AC: 100k $\Omega$  (0.25W)  
220V AC: 50k $\Omega$  (2W)

If an external surge of 3kV or more may occur, connect a surge absorption element in parallel with the lamp.

#### ■ Numerical indicators

To ensure high reliability and long life for the LED, design the circuit not to exceed the maximum ratings under any operating conditions.

- Keep in mind that the display may malfunction or be damaged due to noise in input signals. (TC type)
- Wire the TC type as shown on the nameplate. The IC may break if the supply voltage is connected in reverse.
- Keep in mind that the correct display will not appear with negative logic input because the TC type accepts positive logic input.

#### ■ Operation

Do not use a hitting or bouncing action to operate the button, or the switch may break. Always operate the switch by hand.

#### ■ Storage and operation site

- Use the unit within the rated operating ambient temperature and humidity ranges.
- Do not use the enclosed type in places where oil or water is sprayed or where dust accumulates. In places such as these, use the oil-tight type or provide a dust cover.
- The oil-tight type is evaluated with standard cutting oil and cooling oil applied. The oil-tight type cannot be used with some special oils.

#### ■ Buzzer

##### • Noise

If the application circuit is likely to generate excessively strong noise, connect a surge absorber (e.g., FUJI'S ENC390D, provided that the switch is a 24V type) in parallel with the buzzer.

##### • Place of Use

The buzzer does not have a drip-proof construction. Do not use the buzzer in places where oil or water is sprayed or where dust accumulates. If the buzzer is a splash-proof type, it will resist sprays of water.

- Do not use the buzzer in places that are subject to an excessive amount of corrosive gas.
- Be careful that the buzzer is likely to sound erroneously due to leakage current or the like.

PC board

Illuminated pushbuttons

For wiring to wire-wrap pin terminals, select appropriate wire sizes and tool from the table below.

| Wire size     | Bit   | Sleeve | Number of effective wraps |
|---------------|-------|--------|---------------------------|
| 0.4mm dia.    | 3-A   | 1-B    | About 8                   |
| 0.5mm dia.    | 1-A   | 1-B    | About 6                   |
| (0.65mm dia.) | (2-A) | (2-B)  | (About 6)                 |

Use ordinary wrapping for connection. Wires of 0.65mm dia. must not be used on adjacent terminals. However, 0.65mm dia. wire can be mixed with 0.4mm and 0.5mm dia. wires.

## ■ TERMS AND CONDITIONS OF SALE

### Prices

All prices are subject to change without notice. In the event of a price change, the effective date of the change will be the date on the new price or discount schedule sheet.

All quotations made or orders accepted after the effective date will be based on the new prices.

### Quotations

Written quotations are valid for 30 days from its date unless otherwise stated in the quotation. Verbal quotations expire the same day they are made.

### Taxes

The price does not include any taxes. Buyer shall be responsible for the payment of all applicable taxes.

### Terms of payment

Terms of payment will be listed on the quotations.

### Minimum orders

Terms of minimum order will be shown on quotations, or if orders amounting to less than the latest minimum order amount, a handling fee will be applied.

### Delivery

Delivery of products shall be FOB point of origin in the U.S. Seller shall determine the point of origin of shipment. All shipping and other charges shall be paid by Buyer.

### Packing

Prices include standard domestic packing. Additional special packing costs required for export or by Buyer's request will be charged to Buyer.

### Weight and Dimensions

The weight and dimensions of products described in this catalog are the best information available at the time of going to press. As Seller follows a policy of continuous product improvement, design changes may make this information obsolete. Information in this catalog is subject to change without notice.

### Inspection and acceptance of products

Buyer is responsible for evaluating received products or damage for final acceptance. All claims of shortage must be made within thirty (30) days of receipt of products.

### Return / Cancellation

No product shall be returned or canceled unless return/order cancel authorization has been secured from Seller. All returns/cancellations must comply with Seller's then current Return / Cancellation policy.

### Risk of Loss

Risk of loss or damage to the product shall pass to Buyer at the FOB point.

### Catalog Disclaimer

The information contained in this catalog does not constitute an express or implied warranty of quality, any warranty of merchantability or fitness for a particular purpose is hereby disclaimed.

Since the Buyer's product information, specific use application, and conditions of use are all outside of Seller's control, it shall be the responsibility of the Buyer to determine the suitability of any of the products mentioned for the Buyer's application.

## ONE YEAR LIMITED WARRANTY

The products identified in this catalog shall be sold pursuant to the terms and conditions identified in the Conditions of Sale issued by Fuji Electric with each order confirmation.

Except to the extent otherwise provided for in the Conditions of Sale issued by Fuji Electric, Fuji Electric warrants that the Fuji Electric products identified in this catalog shall be free from significant defects in materials and workmanship provided the products have not been: (1) repaired or altered by others than Fuji Electric; (2) subjected to negligence, accident, misuse, or damage by circumstances beyond Fuji Electric's control; (3) improperly operated, maintained or stored; or (4) used in other than normal use or service. This warranty shall apply only to defects appearing within one (1) year from the date of shipment by Fuji Electric, and in such case, only if such defects are reported to Fuji Electric within thirty (30) days of discovery by purchaser.

Such notice should be submitted in writing to Fuji Electric Corp. of America. The sole and exclusive remedy with respect to the above warranty whether such claim is based on warranty, contract, negligence, strict liability or any other theory, is limited to the repair or replacement of such

product or, at Fuji Electric's option, reimbursement by Fuji Electric of the purchase price paid to Fuji Electric for the particular product.

**FUJI ELECTRIC DOES NOT MAKE ANY OTHER REPRESENTATIONS OR WARRANTIES, WHETHER ORAL OR IN WRITING, EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTY REGARDING MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.**

Except as provided in the Conditions of Sale, no agent or representative of Fuji Electric is authorized to modify the terms of this Warranty in writing or orally.

In no event shall Fuji Electric be liable for special, indirect or consequential damages, including but not limited to, loss of use of the product, other equipment, plant, power system, loss of profits or revenues, cost of capital, or claims against the purchaser or user by its customers resulting from the use of information, recommendations and descriptions contained herein. Purchaser agrees to pass on to its customers and users, in writing at the time inquiries and orders are received by buyer, Fuji Electric's warranty as set forth above.
