

## A Cubic, Single-pole 10A Power Relay

- Economical cube relay with universal terminal footprint
- Conforms to VDE0435
- UL recognized/CSA certified.
- High switching power: 10A @ 250VAC
- Withstands impulse of up to 4,500V
- Coil power consumption: 360mW
- UL Class F coil insulation type also available
- Tracking resistance: CTI>250

RoHS Compliant

### Model Number Legend

G5LA-

Note. Values in the above table are the initial values.

Engineering Data

Maximum switching capacity (NO)

Durability (NO) (Average value)

Ambient Temperature vs. Maximum Coil Voltage

Note. The 120 VAC resistive load service life curve also applies for 250 VAC resistive load.

Note. The maximum coil voltage refers to the maximum value in a varying range of operating power voltage not a continuous voltage.
