

Innovative lighting enclosures for streetlamps

- Modular lighting enclosures for incorporation of control electronics, e.g. in streetlamps
- Various module lengths: 220 mm, 420 mm, 620 mm
- Diameter 67 mm
- Semi-transparent material, easy recognition of switch states (inspections)
- Heat dissipation by air circulation through ventilation sockets
- Protection class IP 32 for vertical installation

New

Technical Data:

- Protection class IP 32 when used with ventilation plug
- Protection class II for U_i 250 VAC
- VDE471/EN60695 (glow-wire test) 650 °C

Accessories:

- Screw fittings M12 and M20
- Screws for attachment of circuit boards
- Ventilation plugs
- External fastening screws

Easy to open with a screwdriver
