

3M™ MicroTouch™ System SCT3250EX (8.75", USB, Standard)

3M ID 98000335053

3M™ Touch Systems has more than 25 years of surface capacitive technology expertise and specifically designed the 3M™ MicroTouch™ System SCT3250EX to meet the performance requirements of display applications ranging from 5.7 to 32 inches. As an all-glass design, the SCT3250EX touch system offers light transmission up to 11.5% better than typical resistive sensors and 3.5% better than typical surface capacitive sensors (based on published specifications).

Suggested Applications

- POS all-in-one devices
- Gaming machines
- Information kiosks
- Amusement stations
- Self-service systems
- Industrial devices
- Ticketing machines

Controller USB

Etch

The 3M™ MicroTouch™ System SCT3250EX (surface capacitive touch technology) provides fast, accurate and reliable touch response with operation unaffected by on-screen contaminants and offers premium optical characteristics.

-
- All-Glass Solution with 3M™ ClearTek™ Hard Coat: High light transmission provides superior display performance
- Superior surface durability maintains optical and functional performance.
- EX Electronics: High MTBF provides reliable system performance
- High ESD performance to meeting industry requirements
- Dedicated ASIC creates fast, accurate touch response
- Scratch-resistant Top Coat: Low surface energy resists surface scratching
- Smooth surface for better drag and draw performance
- Durable finish for easy-to-clean surface
