Description

CD4020BMS - 14 Stage

CD4024BMS - 7 Stage

CD4040BMS - 12 Stage

CD4020BMS, CD4024BMS, and CD4040BMS are ripple-carry binary counters. All counter stages are master-slave flip-flops. The state of a counter advances one count on the negative transition of each input pulse; a high level on the RESET line resets the counter to its all zeros state. Schmitt trigger action on the input-pulse line permits unlimited rise and fall times. All inputs and outputs are buffered.

The CD4020BMS, CD4024BMS and the CD4040BMS is supplied in these 14 lead outline packages:

	CD4020B	CD4024B	CD4040B
Braze Seal DIP	H4W	H4Q	H4X
Frit Seal DIP	H1F	H1B	H1F
