FREECOM DATABAR 3.0: THE WAITING DAYS ARE OVER!

Super speed file transfer. No more waiting. That is what the Freecom DataBar 3.0 offers you. Files are getting bigger and bigger and USB sticks are getting slower and slower. Freecom puts a stop to this and introduces a super fast USB stick: the Freecom DataBar 3.0. Copy files over up to 10 times faster than when using a normal USB 2.0 USB stick. Which means you can work much faster and more efficient.

WHAT IF I DO NOT HAVE A USB 3.0 PORT?

We hear you thinking… "but not all computers have USB 3.0 ports yet…" right? Don't worry! The DataBar 3.0 is USB 2.0 compatible and offers top of the line read-write speeds over USB 2.0 as well. In fact it reaches speeds that ordinary USB 2.0 sticks cannot even touch. And so the Freecom DataBar 3.0 makes sure you are prepared for the future. Let us speed up your work, no matter what kind of system you use.

SUPER SPEED FOR SUPER FILES

In addition to its Super speed the Freecom DataBar 3.0 comes in capacities from 8GB up to 64GB. Enough space to store more than ten Full HD movies. It is made out of strong aluminium to protect your valuable data. Let's put it this way: a giant space for all your photos, movies and music. Yet it has the size of an ordinary USB stick, is made out of aluminium and always offers you unbelievably quick read and write speeds. So why wait any longer? Go get your Freecom DataBar 3.0 today.

• Super Speed Data Transfer, no more waiting, speeds up your work.
• Capacities up to 64GB, enough space to store large files
• Super Fast Read – Write performance on both USB 3.0 and USB 2.0 ports

ALWAYS HAVE YOUR FILES WITH YOU

This compact USB Stick makes it easy to carry your most important files with you wherever you go. Its aluminum design makes a smart impression, and it is also conveniently small. You carry your files around in your bag or even in your pocket – the DataBar 3.0 doesn't mind. It is always at your service!

DRAG AND DROP FILES

Drag a file here, drop it there. Use it to exchange, save or share files on any PC. The DataBar 3.0 is renowned for its ease of use, durability, practicality and affordable purchase price, making it the ideal USB Stick for business people, students and home users.

UP TO 64 MOVIES

Got a lot of files? Need more space for your pictures? Want to back up your PC? The DataBar 3.0 is available in amazingly high capacities of up to 64GB. With that kind of space you can easily save over 43.000 pictures on your DataBar 3.0.
