- Box-joint design: highest stability with low weight
- Doubly supported joint axis for heaviest duty
- High cutting capacity with very little effort thanks to the optimum coordination of cutting-edge angle and leverage ratio with laterally staggered pivot point
- 20 % less effort required compared to high-leverage diagonal cutters of the same length
- Large opening width for thicker cables
- Cuts precisely, even through fine copper wires
- Compact, low-weight construction
- Universally usable, in the assembly, maintenance and production
- Chrome vanadium heavy-duty steel, forged, oil-hardened
