

Ribbon Cable Assembly Length REV1

701 Brooks Avenue South, Thief River Falls, MN 56701 phone: 800-344-4539 fax: 218-681-3380

Cable Length
Tolerance: + .25"

Twisted pair
assemblies:
+/- .25"

The specified length of Digi-Key's value-add ribbon cable assemblies is the length of the cable between connectors. On single ended assemblies enough additional cable is included to add another connector while still maintaining the specified length between connectors. Exception - Twisted ribbon uses a repeating pattern of 18" twisted, 2" straight. As such, twisted pair assemblies use a starting cable length that is a multiple of 20".

For custom lengths or configurations, send inquiries to custom.orders@digikey.com
