

# A friend for life

## C.K. "SURE- DRIVE" SOCKET SETS

Professional quality socket sets. The "Sure Drive" system exerts torque through the flats of the socket rather than the corners, thus eliminating 'rounding off' at high torque. Forged from high quality chrome vanadium steel, all contents have a non-slip satin chrome finish giving maximum resistance to stock and peeling. Screwdriver bits are manufactured in top quality S2 steel.

### 1/4" DRIVE - 39 PIECE

**4634**
