PRODUCT OVERVIEW

PRODUCT OVERVIEW

[Print Product Overview](#)

Parker's Fast & Tite fittings are a compression style fitting that installs in seconds without tools and provides a tight, sure, leak proof seal without clamps or adjustments. A unique grab ring for tube retention, coupled with a Nitrile o-ring creates a positive seal and assures good tube retention with only hand tight assembly. Use with soft metal, glass tubing and the following Parker Parflex Division tubing.

- Polyethylene
- Nylon
- Polypropylene
- Polyurethane
- PTFE
- FEP
- PFA

Markets:

- Water Filtration
- Beverage Dispensing
- Packaging
- Life Science
- Bottling
- Semi-Conductor

Features/Benefits:

- White or black Polypropylene or white Nylon
- Installs in seconds without tools
- 302 stainless steel grab ring for tube retention
- Nitrile O-ring for positive seal
- FDA compliant , NSF-51
- Hand tight assembly

- Applications:
- Water Lines
 - Beverage Lines
 - Food
 - Cooling Systems

Custom configurations and sizes are available upon request. Contact Parker Fluid System Connectors Division at (269) 692-6555 or fscsales@parker.com for additional information.
