

T-Series

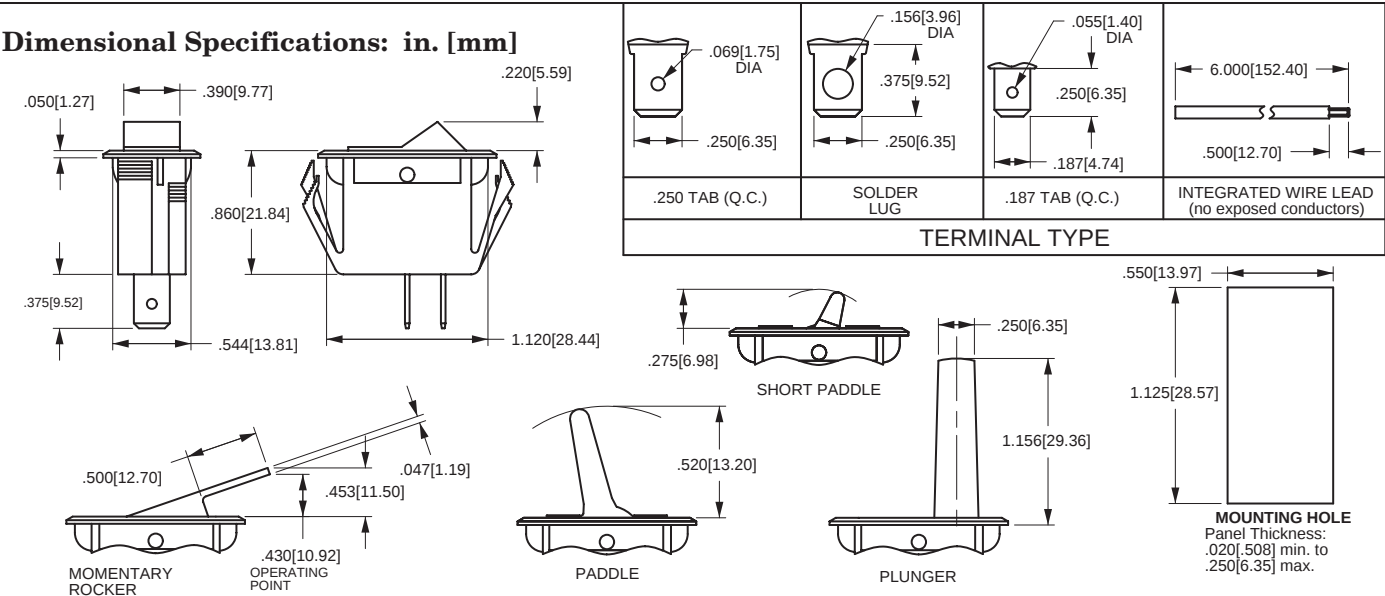

The T-Series Mini Tippette snap-in rocker switches are single pole with ratings up to 20 amps. A variety of circuits, actuators and terminations are available.

Specifications

- Certifications*: UL, CSA, VDE
- Dielectric Strength: 1,000 V (minimum)
- Insulation Resistance: 100 Megohms (minimum)
- Base Material: Nylon
- Actuator Material: Nylon
- Bezel Material: Nylon

* Due to ongoing technological advances, consult factory for certification specifics.
