Your search criteria matched only one product, shown below

FRCV24OR10

The FiberRunner® 24x4 Routing System is comprised of channel, couplers, fittings and brackets designed to segregate, route and protect fiber optic and high performance copper cabling runs to and between equipment racks within a data center or service provider facility.

- Robust, large capacity 24x4 system ideal for use with large cable counts
- QuikLock™ Couplers and Brackets reduce system installation time dramatically
- Channel, covers, fittings and other non-metallic system components made from V-0 flame class rated material
- Compatible with all sizes of Panduit® FiberRunner® and Panduit® Fiber-Duct™ Routing Systems, cable management, and racks
- For other standard colors replace suffix YL (Yellow) with OR (Orange) or BL (Black)
