The RiteOn starter pack gets you started right away.

These self-laminating labels provide simple and rapid identification for low volume installation and rework. The coloured text field gives a good contrast to the cable for extra clarity. The RiteOn protective laminating clear taill ensures optimal protection against humidity, dirt and debris and mechanical abrasion. Write your text in the marker window of the dispenser, dispense the label, place the shaded area with the text onto the cable surface and wrap the clear 'tail' around the cable.
Refill packs are available with label areas in 6 different colours that will suit most applications. Refilling is simplicity itself into the RiteOn dispenser.
