

Thermal motor protector
Temperature limiter
Thermal cut-out

B

13

Applications

- Motors
- Transformers
- Coils
- Electronics, sensors
- Process Automation

Benefits

- Non-sensitive to current
- High current rating up to 30A
- Manifold executions
- Special low current version

■ Heating by current

The diagram is measured with a thermal control without any insulation in an oil bath.

Attention:

The heating depends on the thermal conduction of the control to the equipment or part which should be protected.
