

EMA Epoxy supplied in convenient two-compartment mixer cup with a mixer stick for each cup. Each cup contains adhesive for three (3) EMA or ASMS mounts. Epoxy hardens in about five (5) minutes. Supports about 5 lbs. after first 15 minutes. After full 24 hour curing time, bonding strength will exceed 50 lbs. on clean, grease-free surface. EMSK3-1-X0 is an Epoxy Kit with mounts. EMSK-12-4-12-X0 is an Epoxy Kit with mounts and cable ties packed in a sturdy foil pouch.

Part Number:	EMSK3-1-3-0
Product Family:	Epoxy Applied Cable Tie Mount Kits
Product Line:	Epoxy Applied

RoHS Compliancy Status: Compliant

Part Description:	Cable Ties, Mounts, and Epoxy Kit
-------------------	-----------------------------------

Product Type:	Cable Tie Mounts - Epoxy Applied
