

Cut & strip

EMBLA

Spare cassette, straight, Embla

Embla is a self-adjusting cutting and stripping tool for modern electrical installation and equipment wires (90% of wires can be stripped without adjusting the tool). The introduction of easily interchangeable multiple stripping cassettes enable precision stripping of a wide range of insulations from PVC to PTFE with just one tool. High priority has been given to the ergonomic design of Embla resulting in a lightweight but strong and comfortable tool equally qualified for high volume production and portable/field usage.

- Versatile: Easily interchangeable stripping cassettes.
- Widest stripping capacity of any tool of its type.
- Precise: Fine adjustability ensures that fine insulations can be stripped without damage to conductors.
- Ergonomic: Sculpted shape, soft grip main handle, low friction moving handle, optimized grip span, angled head and light weight.
- Durable: Replacement stripping cassettes and cutting blades available.
- Reliable: Tested to over 150,000 cycles.

Technical data

Length:	191 mm / 7,5"
Height:	123 mm / 4,8"
Weight:	136 g / 4,8 oz
Stripping dim:	>1,0 mm
Cables:	Conduit wire, Flex mains cable, Equipment wire, Flat modplug cable etc.
Description:	Self adjusting stripping and cutting tool
Strip range:	0,02 - 10,0 mm ² up to 16mm ² with special cassette
