

Rub-On Etch Resist

416ER

Simply Rub-On and etch!

Now you can create your very own circuit with little investment in money and time. Our Rub-On Etch Resist commonly used shapes in circuit board creation. It even comes with a sheet for you to custom cut your own shape. All you need to do is Rub-On the shapes and lines onto a plain copper clad board and you are ready for etching. You will be amazed with the quality of your circuit!

- Perfect finish every time
- Sharp edges
- No printing or exposure required

For small production runs and creation of boards with plated through holes, please visit our website at www.mgchemicals.com
