●TM5RSA-2424 (50)

CL No.	Part No.	RoHS
222-3264-2-50	TM5RSA-2424 (50)	YES

Note : Standard finish color is gray.

PCB mounting hole layout (Connector mounting side)

CL 222 TM

CL No.	Part No.	RoHS
222-3712-1-50	TM5RSB-1616 (50)	YES

The technical drawing shows two views of a mechanical component. The left view is a front elevation showing a symmetrical part with a central keyway. Dimensions include a total width of 31.9, a distance from the center to the outer edge of 29, a distance between internal features of 13.1, a height of 3, and a base width of 29.4. A dimension of 0.43 is shown at the bottom center. The right view is a side elevation showing a profile with a total height of 14, a top flange thickness of 2.5, a main body diameter of 12.2, a shoulder diameter of 8.5, and a base diameter of 0.35. A label "KEY WAY" points to the central feature in the front view.

CL No.	Part No.	RoHS
222-3423-4-50	TM5RSB-2424 (50)	YES

Technical drawing of a three-ported valve assembly. The drawing shows a cross-section of the valve with three ports. Key dimensions are labeled: 45.3 (total width), 42.5 (width of the central port), 13.1 (width of each side port), 3 (height of the valve body), 40.9 (width of the valve body), and 0.43 (width of the valve body). A label 'KEY WAY' points to a feature on the left side of the valve body.

EIGHT-CONDUCTOR LOW PROFILE JACKS

●GENERAL

The TM5RL Series are small 8-contact modular connectors designed to be 11.7 mm in height and 23% smaller in volume than our former models to meet the demand for smaller and thinner electronic equipment.

●FEATURES

- (1) 11.7 mm in height above PCB surface (shielded jacks: 11.9 mm)
- (2) 23% smaller in volume than our former models
- (3) Space-saving: 14 mm (14.6 mm) in width and 17 mm (7.6 mm) in depth. (): shielded jacks
- (4) EMI-protected ferrite and shielded jacks available.
- (5) Ferrite and shielded jacks use the same connector body as standard jacks, requiring no change in the PCB for redesigning.
(When you plan to redesign a standard PCB to a shielded PCB, select the shielding pattern in advance).
- (6) A quadruple jack is equal to or smaller in size than four TM5RL-88 jacks combined.
- (7) Plugs and jack connectors comply with the ISO 8877 Standard (ISDN interface connector).

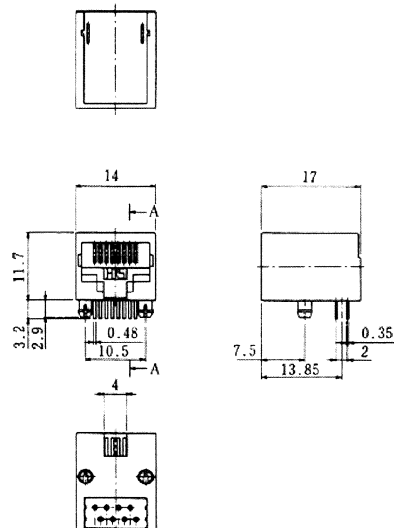

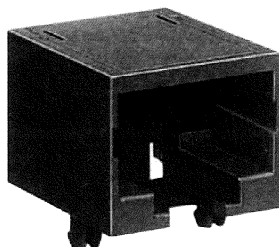

●APPLICATIONS

LAN boards, HUB, ISDN terminals, and personal computers.

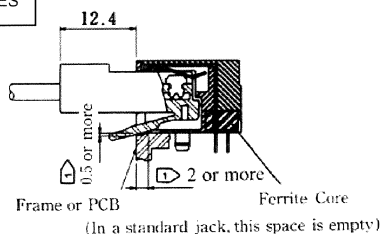

●RIGHT-ANGLE DIP TYPE
