

1	RETRACTABLE HOOK TIP
2	BNC ADAPTER
3	I.C. ADAPTER
4	INSULATING TIP
5	TRIMMER TOOL
6	6" GROUND LEAD

(Accessories are also included with each probe)

FEATURES:

- Sprung hook quickly attaches to the probe body and converts the tip to a hook for stronger test terminal retention.
- BNC adapter attaches to the probe tip base and converts the tip to a push-on BNC (male) for optimum shield protection.
- IC Tip Adapter attaches to the probe tip to allow single lead probing on through-hole DIP devices while preventing accidental adjacent pin shorting.
- Insulated tip offers additional insulation protection around the probe tip base area to prevent accidental shorting.
- Trimmer tool is used to match the frequency response of the probe to the oscilloscope.
- Six inch (152,4) ground lead reduces signal distortion and leading edge ringing.

ORDERING INFORMATION: Model: 6267
