

Cenelectrex®

RS Code 233-339

VESX10

The Cling-on Clamp

ATEX approved clamp for use in potentially explosive atmosphere zones.  II 1 GD T6

The VESX10 'Cling-On' Clamp is a heavy-duty earthing clamp used for bonding of drums, kegs, tanks, IBC and vehicles.

Cen-Stat™ cable is standard on all Cenelectrex products. Multi-stranded steel conductors for superior mechanical strength combined with Hytrel anti-static coating for optimum chemical and abrasion resistance. With a 1:10 extension ratio **Cen-Stat** cable is proven to hold its shape after 20,000 continuous extensions.

Clamp and Cable Specification

Passivated Carbon Steel
Powerful clamping action
Twin Tungsten Carbide Contacts
Length 210mm, Width 35mm
Jaw Opening 40mm
5m Spiral Cable (4mm sq. conductors)
10mm ring terminal fitted to free end
