ER6019

Combination Rope and Push-Button Actuated Emergency Stop Switch

- Long rope spans of up to 75 m (246 ft.) for standard model and up to 125 m (410 ft.) for extended model means fewer number of switches required per application
- Heavy-duty housing—the die-cast housing and stainless steel eye nut make the ER6019 suitable for demanding industrial applications
- NEMA 6 enclosure enables the ER6019 switch to withstand water washdown cleaning
- Integral E-stop—the lid-mounted E-stop button provides emergency stopping capability at the extreme end of the installation
- Status indicator—the lid-mounted status indicator makes the system easy to set up and to maintain the proper rope tension
- Variety of contacts—three or four sets of contacts to satisfy the most demanding applications
- Vibration tolerant—the snap-acting switch contacts protect against nuisance tripping due to vibration
- Long life—the ER6019 switch is designed for a minimum of one million actuations
- Conduit beacons are available to provide visual status indication (order separately from accessories section)
