Automotive and Marine Fuse Holders

Blade fuse holders are a reliable and cost-effective solution to protect equipment and electrical applications from damage caused by blown circuits. Fuses are an ideal alternative to circuit breakers because of their small size and ability to protect multiple circuits within a small space. MPD has a wide variety of automotive and marine fuse holders that you can choose from.

Fuse Blocks

We offer a line of Fuse Power Taps for a wide range of applications. All our Fuse Power Taps are constructed of high-quality materials for long-lasting durability. Taps are designed in multiple styles for use with glass and standard fuses. Installation of these fuse blocks requires no crimping. All connections are made by heavy duty screw terminals that can accept up to a 12 gauge wire. They are very easy to install, reduces the amount of wiring time required and typically about the size of a pack of cigarettes. The unit is great for experts who want a simple installation and for novices who are electrically challenged. Suitable for a broad range of household, industrial and commercial uses.
