

Wiha. Premium Tools
for Professionals.

Wiha PocketStar Fold Out. Press One Button for the Correct Key.

The unique opening mechanism facilitates an easy selection of the desired key size.

The 270° stop limit when working on applications with higher safety requirements puts an end to trapped fingers.

The Wiha PocketStar fold out offers optimum handling and a wide variety of uses, which are expressed in the form of many practical details.

The ingenious opening mechanism facilitates the simple selection of the required key size from the glass-fibre-reinforced holder.

Wiha solved an important demand of fold-out users: When turning a key into working position only this one moves. The remaining keys stay where they are.

The various working positions offer universal use:

- In the 180° position, the PocketStar is used as a screwdriver.
- 270° stop limit for using the tool as practical lever for high torques.
- Any position can be set between 90° and 270° for a variety of different work applications.

Product Features:

- Innovative opening mechanism for simple selection of the desired key size
- Particularly suitable for use as screwdriver when the blade axis is set at 180° or as practical lever with blade in 270° position
- Ergonomic, glass-fibre-reinforced holder guarantees the easy transfer of even the highest torques
- Can be rotated by any angle between 270° and 90° to save time when working on applications where space is tight
- 270° stop limit for higher safety puts an end to trapped fingers
- Colour-coding system for different drives and dimensional systems delivers great clarity when using several PocketStars
- Covered hex key axes prevents catching on clothes

Wiha PocketStar Fold Out. Press One Button for the Correct Key.
