

Sta-Kon®

Terminals

These non-insulated ring terminals are made of electrolytic copper for high conductivity. They can be installed with crimping tools having a single indenter or double indenter (recommended for solid wire). Serrated barrel increases grip on wire. Wire range identification is stamped on the tongue of each terminal.

Most standard bulk catalog numbers can be put on Mylar Tape for reel fed applications (i.e. 12050 tool and applicator dies). See pages K61- K62.

Please put the suffix M for Mylar Tape RA2573M.

(Bulk number 1000 and 500 packages.)

Stock Thickness:

A & B = .03

BC = .05

C = .04
