Series 2500, .100" Low Profile 4 Wall Box Header, SMT Vertical, Vertical and Rt Angle Thru Hole

· Low profile, space saving design · Center slot polarization prevents mis-insertions and reduces insertion time · Dual slot polarization means broader compatibility with competitive polarization designs (not 10 pos.) · Optional retainer clip for locking sockets in place and increasing connection reliability in vibration-prone environments · Optional high temperature insulator suitable for "no lead" soldering operations · High temperature option in through-hole version suitable for "paste in hole" reflow soldering techniques · Exposed solder tails (on right angle version) provide ease of cleaning and reduced repair costs · Straight surface mount version available · See Regulatory Information Appendix (last page of Tech Data Sheet) for chemical compliance information
