

ASURO DISPLAY KIT ARX-DSP

Circuit ARX-DSP

Short Manual ASURO “DISPLAY”

* This kit is already assembled you only need to connect it to your ASURO extension connector.

*Programming

You need the complete software to operate this display. You need the following files i2c.c, i2c.h, pcf8574.c, pcf8574.h, lcd.c and lcd.h in your project file. The main program needs both hex files:
