

KD30B

This power pack can be used as either a mains or modular unit.

In addition to powering the unit using a 12V DC power supply (jack and flying leads) it also comes with a 3.5mm DC socket for mains use.

Specifications

- Model: KD30B
- Length: 5 - 30m
- Input Voltage VDC: 12V
- Output Voltage VAC: ~100V
- Modes: Flash / Continuous
- Frequency: ~700Hz
- Batteries: 1 x 12V
- Operating temp: -20°C to 55°C
