

Power Distribution Blocks

A powerful way to manage your power distribution challenges.

Your problem:

You're facing the enormously complex wiring requirements of an automated manufacturing facility. Or the compatibility problems of a commercial complex retrofit. Or the need for seamless electrical service in a hospital annex that's anything but seamless. Where can you turn to solve your power distribution problems?

Our solution: Well beyond circuit protection solutions. Mersen offers you an arsenal of circuit management products. One of which is our line of polycarbonate 600V / 90 to 1520A Power Distribution Blocks. Safe and convenient, durable and easy to install, they're the simple way to split primary power circuits into secondary circuits — or provide fixed-junction tap-off points. Either way, our full range of sizes accommodate any gauge aluminum or copper conductor. Exclusive adder poles snap onto the 1, 2, or 3-pole blocks for maximum pole flexibility . . . and safety covers are available.

Want more information fast? For more technical or application-specific information, please call our Power Distribution Block experts, at 978-462-6662; 416-252-9371 in Canada; or visit our website at ep.mersen.com.

FSPDB Finger-Safe Power Distribution Blocks

Safety evolving

Mersen FSPDBs introduce a new level of safety and ease for installing power distribution blocks. An IP20 level of finger-safe protection is achieved using FSPDBs, eliminating the need for special covers or custom Plexiglas sheets to protect your panels. FSPDBs (sizes 1 to 4) simply snap onto 35mm DIN rail to provide the quickest installation. Modular design also allows for multi pole applications by use of assembly pins. FSPDBs provide a safe, convenient way of splicing cables, splitting primary power into a variety of secondary circuits or providing a fixed junction tap-off point.

Features/Benefits:

- **Finger-safe protection**
Fully insulated block ensures touch safe isolation of live parts. Recessed termination screws and wire openings provide IP20 grade protection and qualify as “finger-safe” per IEC 529.
- **Compact modularity**
Single or multiple pole configurations in the most compact footprint. Allows users to build smaller or higher density panels.
- **Snap on DIN-rail mounting**
Sizes 1 to 4 feature integral DIN rail adaptors allowing for quick and easy installations on 35mm DIN rail yielding lower installed costs.
- **Captive termination screws**
Unique channel design ensures captive metric wire termination screws. Screws can never be lost.
- **Available accessories**
For multi-pole panel mounting, simply snap in pins for rigid fit. Cap plugs provide the ability to maintain touch safety on unused openings. Circuit identification markers simply snap into blocks to ID circuits. End anchors provide rigid end stops.
- **Multiple wire ratings**
Provide users more versatility by offering capability of using multiple conductors in #2 and 2/0 openings.
- **AC & DC ratings**
FSPDB1, 2, and 3 have been evaluated for use at 1000V (AC or DC) provided they are installed on DIN-rails only and with barriers between poles of opposite polarity of sufficient size to maintain required spacings.

Ratings:

- Volts** : FSPDB1,2,3
1500VAC/DC
: FSPDB4,5
600VAC/DC
- Amps** : 175 to 840A
- SCCR** : 600V or less, 100kA
with proper fuse.
: Over 600V, 10kA

Accessories

Catalog No.	Description
FSPIN1	Accessory pin to form multiple pole block
FSCIM1	Circuit identification marker for 2/0 & #2 max. conductors (80 per card)
FSCIM2	Circuit identification marker for 350, 400 & 600 kcmil max. conductors (56 per card)
FSCAP1	Cap plug for spare 2/0 openings
FSCAP2	Cap plug for spare 350 kcmil openings
FSCAP3	Cap plug for spare 600 kcmil opening
FSEA	Pair of end anchors

MPDB Series Open-Style Power Distribution Blocks

The Next Generation Power Distribution Block (PDB)

Mersen power distribution blocks provide a safe and easy method of splicing cables, splitting primary power into secondary circuits and fulfilling requirements for fixed junction tap-off points. All blocks are UL and CSA approved while meeting spacing requirements for feeder and branch circuits in conjunction with UL508A and the National Electrical Code®. PDB options include single or dual conductor primary inputs and up to 30 secondary outputs. Specialty blocks are available allowing for up to 7 primary inputs. The MPDB series is offered in three size categories: miniature (MPDB62 and MPDB63 series), intermediate (MPDB66 and MPDB67 series), and large (MPDB68 and MPDB69 series), in both aluminum and copper.

Features/Benefits:

- **Adder Poles**

All sizes have optional adder poles for increased flexibility and ease-of-use. Adder poles can be stacked to form multi-pole units in the field without the use of tools. Adder poles allow for customization of primary and secondary wire combinations. End barriers are also available for sale, catalog numbers can be found in the catalog number selection tables for each size block.

- **Wire Connectors**

Standard aluminum and copper wire connectors are available. Aluminum connectors accept both AL or CU wire while copper connectors accept CU wire only. Connectors are all 1-piece tin-plated.

- **Insulators**

Insulators are virtually unbreakable, made of glass-filled polycarbonate. "See-through," hinged safety covers are optional and provide a greater degree of safety and shock resistance where required. Hinged covers can be installed without tools.

- **Spacings**

1 inch through air and 2 inches over surface between uninsulated live parts of opposite polarity meets requirements for feeder and branch circuit applications of UL508A.

- **Safety Covers**

Polycarbonate safety covers provide dead-front protection. One cover is needed for each pole. Each cover has a test probe hole in the center for circuit checking. Covers are optional accessories and catalog numbers can be found in the catalog selection tables for each size block.

Additional Specifications:

Wire Type:	Copper Blocks: 60/75°C Solid/Stranded CU Aluminum Blocks: 60/75/90°C Solid/Stranded AL and CU
Connector:	Copper Blocks: Highly conductive tin-plated copper Aluminum Blocks: Highly conductive tin-plated aluminum
Insulating Material:	Glass-filled polycarbonate with verified dielectric strength in excess of 2500V
Flammability:	UL94-V0
Mounting:	Direct panel mount
Environmental:	RoHS compliant, Lead Free

Ratings:

Volts : 1000VAC/DC

Amps : 65 to 2260A
based on NEC table
310.15(B)(16) 75°C
ampacities

SCCR : 100kA with properly
sized fuse

Hinged Safety Cover for MPDB68 and MPDB69 series: Catalog number **MPDBC6869**

End Barrier for MPDB68 and MPDB69 series: Catalog Number **MPDBE6869**

MPDB Double-Wide Open-Style PDBs

The MPDB double-wide series are designed for custom applications where large ampacities are required. Double-wide blocks are not UL or CSA certified unless otherwise noted. All double-wide blocks are Mersen self-certified and approved.

Catalog Numbers (Double-Wide)

Line		Load		Aluminum	Copper	Amp Rating	
Wire Range	Openings per Pole	Wire Range	Openings per Pole	Poles 1-P	Poles 1-P	per Pole
