

The diagram shows an exploded view of the Amphand® marker. Component 1 is the marker tip assembly, which includes a central needle and a protective sheath. Component 2 is the marker body, which is a cylindrical tube with the brand name 'Amphand' printed on it. Component 3 is the marker sleeve, which is a long, thin cylindrical tube that fits over the marker body. Arrows indicate the assembly sequence: the tip assembly (1) is inserted into the marker body (2), and the marker sleeve (3) is then slid over the marker body.
