- Touch-activated to open
- 100-pound load capacity
- Safe and aesthetic solution

Manufactured by Modern Domestic, Los Angeles, www.Rhoom.com

Accuride®

3832TR/HDTR

Touch Release

The 3832 Touch Release and Heavy-Duty Touch Release products hold drawers or roll-out shelves in a closed position until activated by touch. Pushing on the drawer front propels the drawer open, providing a good solution for those who have difficulty using drawer pulls.

Designed for residential and commercial projects, the 3832TR is also well suited to portable cabinets or equipment for medical and educational environments. Model 3832HDTR has a stronger hold-in force designed for more demanding applications.

Features & Benefits

- 100-pound load capacity.
- Full extension for complete access.
- Hold-in feature keeps drawers closed.
- Opening mechanism activated by 1/16" travel inward.
- Propels drawers open approximately 2" from the closed position.
- Compatible with inset and overlay drawer front styles.
- Elimination of drawer pulls provides an aesthetic, streamlined look to cabinetry. No protruding pulls provide a safe and sanitary solution.
- Lever disconnect for easy removal and reinsertion.
- Includes Cam Drawer Adjust feature.

Availability

- Even lengths 12"–28"
- Finishes: zinc, black, or white.
The zinc and white finishes are RoHS compliant.

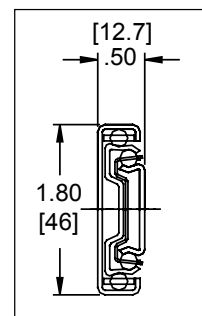

Optional Kits

Face Frame Bracket Kit:

P/N 4180-0661-XE

Note: The Rear Face Frame Bracket is specially designed to fit the Touch Release models. It is not compatible with the other 3832 products.
