

16×16 dot matrix unit

LUM-256HMU356

The LUM-256HMU356 is a 16×16 dot matrix display which can be used in a wide range of applications, including alphabet, numeric, symbol and graphical displays. A large display can be easily created by arranging a number of these dot matrix displays in an array, and they can be applied to a variety of display purposes. A custom LSI controller has display data memory for two screens, and data for each screen can be written and displayed in turn.

●Applications

Light source for displays

●Features

- 1) 16×16 dot matrix.
Shape of emitting section : □2.0×2.5
