

PATGUARD WORK ABOUT

Users can quickly and easily record results via their PDA (Personal Digital Assistant) with this specifically designed software package. It offers simple and easy test recording and can record results from any tester (not just those in the Seaward range) directly into a PDA for later transfer to the PC. The remote off-site working gives you the freedom and flexibility to work smarter during the actual testing. It uses familiar Pocket PC interfaces and links to PATGuard's Windows-based test record management so it's easy to learn in minutes. PDA and mobile technology will enable you to email PAT test records prior to re-test and also results after test.

Key Features

- Direct input of assets, tests and inspections
- Uses easily transferred files
- Displays PATGuard records on a PDA
- Direct download and upload to tester
- Allows mobile working
- Fully compatible with all PATGuard software

Ideal for the following users

- Electrical Contractors
- Service Sector
- All Test Organisations
- Rental Companies
- Public Sector

▲ Easy to use, clear and understandable interface makes PATGuard Work About ideal for mobile testers.

SUPERIOR SOFTWARE

Our PATGuard software is designed to be highly functional, easy to use and above all, helpful. It is available in three versions, each offering the optimum number of functions depending on your requirements. Each software package will add value to the safety testing facilities you offer your customers or use in-house. This can be achieved by utilising full test records, scheduling and pre-emptive, automated notification.

This means you know exactly where all test equipment is located, its test status, and when it requires re-testing. Add to that our PATGuard Work About software which enables mobile working through your PDA and PATGuard Time Manager for managing test times on the job, and you are in total control.

This cuts down on administrative tasks, it can save a lot of valuable time. So whether you are a large international company or small, local firm, PATGuard software makes economical sense.

To find out more please contact us on 0191 586 3511, visit www.seaward.co.uk or email us sales@seaward.co.uk.
